THE SOLONS AT ST. PAUL.

Lively Scene After the Passage
of the Duluth and
Winnipeg Bill.

Senator Whitman Will Prob-
ably Get His Bill for an
Extra Judge.

Judge Page Morris Gets His
Salary Raised—The
Doings Today.

St. Paul, March 6.—[Special.]—Today

the legislature, or the greater portion of
it, is on another jaunting trip, this time
going to the Fairbault to inspect the
schools for defectives. The senate ad-
journing over an entire day, but the
house adjourned only until 7:30 this eve-
ning.

After the passage of the bill waiting
the forfeiture of the Duluth & Winnipeg
land grant last evening, a lively scene
occurred in the house. John Day Smith,
of Minneapolis, was in the chair, and Mr.
Estes of Waukegan asked that it be
stated in the record of the house that
Mr. Severson had been upon the floor of
the house, and had refused to vote
when his name was called. This was
followed by a dozen or more motions
from different members, and among
them were some to adjourn. Confusion
ensued and there was such an uproar
as has not been seen in the house this
session. Before adjournment was reached
Speaker Graves resumed the gavel and
soon had the house settling in smooth
waters to adjournment.

Senators Edwards and Whitman had
a joust on the floor of the senate yester-
day. The tussle came over Senator
Whitman's bill for an additional judge
in the Eleventh judicial district. After
having action on it delayed two or three
times, Mr. Whitman sized up the situa-
tion and let it go for final passage yester-
day. Senator Edwards has opposed
the bill from the start, and just before the
roll was called he arose and began an
argument against it. Senator Whitman
meant to answer him, but he was inter-
rupted by a question of privilege, and
members taking occasion to speak on
the third reading. Senator Edwards
then entered a protest, and Mr. Whitman
as Senator Whitman sat down, and it was
at about this time that the sparks
dropped. "I suppose that the gentleman
alludes to my action when he charges
that unfair means have been taken to
kill the bill. I deny the truth of his
assertion, and I turn the matter over to
the gentleman from St. Louis." Raising
his voice, turning squarely to Mr. Whit-
man and leveling his forefinger at him,
"the gentleman has had fair treatment,
and further, he has not only used fair
means but has traded votes on other
measures to secure votes for his pet bill,
in direct violation of the constitution of
this state." "Yes, I will answer,"
said Mr. Whitman hotly. "The state-
ment is false." "The gentleman said that
he had secured two votes in that way,"
went on Senator Edwards. "I deny it;
that is false," cried Senator Whitman,
springing to his feet. Senators Ward
and Bowen then called the gentleman to
order. Mr. Whitman said that he changed
his vote to "no" on the bill when he saw
it was lost, gave notice that he would
move to reconsider.

H. P. Stevens, of Ramsey county,
in explaining his vote upon the Duluth &
Winnipeg bill, made a very telling
speech. To be sure he got mixed up in
quoting from Shakespeare about Mac-
beth, but he showed plainly that he was
not to be bulldozed by any or any
road. He made a shot at the aristocrats
of St. Paul who had served notice upon
him that he would dig his political grave
in the Vermilion. He said that he was
marking that he was ready for it, if he
could not be allowed to express his con-
victions upon a matter of so great im-
portance. He paid a glowing tribute to
Duluth, and spoke for the great unde-
veloped section of the state in the north.
It was the best speech that has been
made in the house this session.

The bill amending the constitution judge
bill for Duluth, which increases Judge
Morris's salary to \$2500, passed the house
yesterday. It was amended in the
senate and agreed to by the house, and
will become a law when the governor
signs it.

Speaker Graves entertained the mem-
bers of the house at the Ryan last eve-
ning. The occasion was one of enjoy-
ment to all who participated. The
speaker knows how to make himself
silly.

HERALD OPINIONS.

What Some Prominent People Say of Its

TOWNE, March 6.—[Special.]—General
Manager Bacon—It is a good move and
cannot fail to add to the development of
the Vermilion. It will receive a hearty
support.

Jas. H. James—Just what the Range
wanted all the time. Mining men should
encourage the move every way.

Jas. Sheridan—It will result in good
for everybody on the Vermilion and help
the range.

Jno. C. Brown—Glad to know that
such a thing has been done. The Herald
will reap the benefit as well as the Ver-
milion.

Ed. Brown—The Vermilion needs press
representation, and now it will have it.

A. J. Londorf—All iron men will sup-
port the venture and encourage it.

Archie Chisholm—A good thing for
the range in general.

Capt. McComber—It is a creditable
move every way.

G. W. Mee—An undertaking laudable,
and let us hope profitable.

Opwell & Co.—Nothing could help us
more than this movement.

John Sawbridge—An excellent move
for the range.

Mayr Shepherd—It will be highly
appreciated.

Robert Williams—Homesteaders will
readily subscribe for such an enterpris-
ing paper.

John Owens—It is a creditable piece
of journalism and should be supported
liberally.

The first city election will be held in
April, possibly during the first week.
Chas. McNamara has come out as a can-
didate against W. N. Shepard and from

THE CABINET SWEARS.

All Members of the New Cab-
inet Qualify for Busi-
ness Today.

Our Own William Windom the
Last of Them all to be
Sworn.

Heads of Departments Pre-
sented on Platters to
New Officials.

WASHINGTON, March 6.—The president

signed the commissions of all members
of his cabinet this morning and they
were formally inducted into office. Sec-
retary Tracy was the first to qualify.
He took the oath of office at the navy
department at 11:15, in the presence
of ex-Secretary Whitney and the prin-
cipal officers of his department. Secre-
tary Proctor arrived at the war depart-
ment about 12. Ex-Secretary Endicott
and all chiefs of bureaus are in waiting
in the secretary's office. Gen. Sherman
also called on the new secretary, and
remained during the ceremonies incident
to the change in the administration of
the war office. After Secretary Proctor
had been installed, he received all offi-
cers and employees of the department.
Gen. Schofield and all the principal offi-
cers of the department were separately
introduced by Ex-Secretary Endicott.
Attorney General Miller was sworn in
at 1:30 in the presence of Solicitor Gen-
eral Jenks and other officials of the de-
partment. Ex-Attorney Garland was
sworn in the day and introduced him-
self to all officials of the department.
Secretary Windom was the last mem-
ber of the new cabinet to receive his com-
mission. He called at the White House
at 2:30 o'clock and received his commis-
sion from the hand of the president him-
self. The secretary then proceeded to
the treasury department and the oath of
office was administered to him by Mr.
Fitzpatrick, a clerk in the department,
in presence of ex-Secretary Fairchild
and the principal officers of the treasury
department. The secretary then had a
few minutes' conversation with the new
old secretaries, ex-Secretary Fairchild
presented to Secretary Windom the
heads of divisions and other officials of
the department.

At 2 o'clock Mr. Blaine came to the
department and was introduced to the
new secretary by Mr. Sherman and
Fitzpatrick, a clerk in the department,
in presence of ex-Secretary Fairchild
and the principal officers of the treasury
department. The secretary then had a
few minutes' conversation with the new
old secretaries, ex-Secretary Fairchild
presented to Secretary Windom the
heads of divisions and other officials of
the department.

THE DAY IN THE CITY.

A crowd of dissatisfied workmen still
hang around the Masonic opera excava-
tion.

Quincy and Omeis are building a large
workshop and office at their new dock
slip 1.

Minimum temperature this morning
was 33 degrees above; the day has been
dull but warm.

Foreman Billy Hughes with his street
cleaning gang are at work on Superior
and further, he has not only used fair
means but has traded votes on other
measures to secure votes for his pet bill,
in direct violation of the constitution of
this state.

A boy living on South Fifth avenue
west received a severe cut this morning
from a cleaver that he was using, the
knee-cap being nearly taken off.

There was a fine display of the aurora
borealis last night, the whole northern
horizon being brilliantly illuminated with
the white and rose colored lights.

The new storm sewer built to carry off
the waters of Clark house creek, is doing
very well, and the street between
Fifth street is now but a rivulet.

A petition for a rehearing in the new
celebrated Eaton-Merritt Sioux half-
breed case, filed by the defendant, today
days, with fair prospect it is said of a
reopening of the case.

Of the state school fund just appro-
priated on the basis of \$1.15 to each
scholar, a total of \$223,719 is given out.
St. Louis county gets on 2362 scholars
\$2910. Of this Duluth has about
\$2450.

Two trains nearly collided this morning
near the Union depot, one moving
from Duluth toward an open train, and
while the other was going at a good rate
of speed towards the switch junction at
some place.

J. B. Butcher will establish a lively
stable at the corner of Washington ave-
nue and Superior street. The building
will be a two-story frame, 40x60 feet,
and will cost a little less than \$2000.
Waterworks & Ice are doing the work.

Postmaster Flynn has been talking
with contractors about moving the pre-
sent postoffice building and they say it
can be done; and should it be decided
to move the quarters to the Spalding
house the building will be moved to the
lot above the Bay View, or across the
alley from its present location.

THE MAYOR PROCLAIMS.

Mayor Sutphin Determines to Stop Liquor

Selling to Minors.

It has recently come to the knowledge
of the mayor that wines, liquors and
other temperate drinks are being sold
to boys and minors, several of whom have
been seen lately in an intoxicated con-
dition. There is a state law against selling
liquor to minors, but some of the saloon
keepers have utterly disregarded it, as a
large share of their trade came from
youths. The mayor has determined to
put a stop to this business and has is-
sued the following proclamation:

Whereas, Chapter 31 of the General
Laws of Minnesota for the year 1887
makes it unlawful for any person to sell,
give, barter, furnish, or dispose of in any
manner, either directly or indirectly, any
spirited wine, malt or fermented
beverage to any minor person, or to
any habitual drunkard, or intem-
perate drinker of intoxicating liquors, and
prescribes a penalty for the violation of
said provision; now, therefore,

Notice is hereby given to whom it
may concern, that the police of the city
of Duluth have been instructed to see
that the law in this respect is complied
with to the letter. Any person found
disposing of liquor to any minor person,
or to any habitual drunkard, or intem-
perate drinker of intoxicating liquors, will
be prosecuted to the fullest extent of the
law, without discrimination.

JOHN B. SUTPHIN, Mayor.

Piggot's outdone.

Piggot the boss European liar out-
done by an American headstrong
Soup, who runs a Chinese laundry just
around the corner claims to do as good
work as Lute's laundry.

There will be a social at Ingall's hall
tomorrow, Thursday evening, after danc-
ing class session.

Their Wishes.

State Grain Inspector Appoint-
ed—The Work of the
Legislature.

St. Paul, March 7.—[Special.]—Gov. Merriam sent a message to the house last night upon the subject of state finances. On July 31 next there will be a deficiency of \$250,000. For furnishing the asylum at Fergus Falls, the St. Cloud reformatory, and for other improvements at charitable and general institutions, the sum of \$150,000 will be required. To meet this the governor recommends the issue of \$400,000 in bonds bearing interest at four per cent. He estimates that on July 31, 1891, on the basis of the present tax levy, there will be surplus of \$250,000 for the years 1890 and 1891. He recommends that the state tax be increased by one-fifth of a mill, which would yield \$200,000. Adding to this the sum of \$150,000 realized by the sale of bonds and the estimated surplus of \$250,000, a total sum of \$600,000 would be made available for extraordinary expenditure. As the present estimates of appropriations asked for aggregate \$1,850,000, it will be necessary to send them down about one-third, the message concludes.

In my judgment it would not be advisable to make the above amount available before April 1, 1890, and April 1, 1891, in equal amounts, or in such proportion as may be deemed best. In order to keep the extraordinary appropriations within the limit of \$600,000, it will be necessary to curtail very materially the amount of money required by the several state institutions, as estimated by the boards of control. These estimates, and others of general and specific character, aggregate the sum of \$1,850,000, an amount more than three times as large as that produced in the manner herein suggested. It is your duty to guard against crippling any of our state institutions by a failure to provide means for the effective management of the state, and the amount placed at your disposal under this plan will, I think, be sufficient for all requirements. There are many improvements suggested, all no doubt very desirable, but at this time not absolutely essential, and in view of the depleted condition of the state treasury and the unpropitious outlook in the commercial and business world, it would be proper to defer considerations of such matters until monetary conditions are more favorable, or the necessity greater, thus saving the people from burdening that night at this time prove heavy. It is hoped that the plan outlined will meet with your approval.

TODAY'S WORK.

His Introduced in the State Senate—The House Work.

St. Paul, March 7.—In the senate to-day, Senator Whitman introduced a bill relating to the deposit of ballots at polling places. It provides that ballots shall be deposited at each polling place in a box so that voters may prepare their ballots in private.

The next bill also came from Senator Whitman and provided for patient escapes in all hotels and state institutions in the state. The bill requires that fire escapes shall be put in every room of buildings three stories high or upwards.

Senator Swanson offered a bill to prevent the "clipping" of horses in winter. It went to the agricultural committee.

Senator Walmark offered a bill relating to licensing of peddlers and peddlers in the state and prescribing penalties for violation of law.

Senator Durant offered a bill amending the general laws relating to actions to quiet real estate titles.

Senator Keller sent up a bill amending the banking law, and also a bill for the necessary amount of capital stock for banks in small towns be reduced from \$25,000 to \$10,000.

In the house, the first hour of this morning's session was consumed in receiving the reports of committees, passing a few local bills, and Mr. Keller moved that the house go into committee of the whole. On special orders, the prohibition of a bill to burpee took the floor, faced the audience and began a set speech.

WHITEMAN'S WORK.

Sanguine of the Success of His Judgeship Bill.

St. Paul, March 7.—[Special.]—Senator Whitman said last night that today he would get his judgeship bill through the senate without any trouble. Besides the twenty-two who voted for it before, he has found two or three others who will help him out.

A funny thing occurred during his discussion of the subject with the Herald correspondent. Senator Keller came in, and Mr. Whitman said:

"Now there is Keller, he is going to vote for my bill."

"I don't know about that," responded the man from Stearns; "you called me a clown, and now you come around and ask me to vote for your bill. Oh, yes, an onto you fellows. You can't fool old Henry." And the German winked very hard and very fast while Mr. Whitman told him that it was all a mistake, that he did not call him the name alleged, etc. Mr. Keller afterwards indicated that he was all right on the question.

The Duluth & Winnipeg land grant bill is now in the senate. Senator Whitman says he believes that it will pass the upper house, although it will meet the same opposition that has been at work all the session in the house.

Chief Grain Inspector.
St. Paul, March 7.—[Special.]—John R. Randall, of Winona, has been appointed chief grain inspector by Governor Merriam.

Judge of Probate's Salary Raised.
St. Paul, March 7.—[Special.]—Speaker Gray's bill increasing the salary of the judge of probate's size to \$2250 passed the house today, under suspension of the rules.

INHUMAN PARENTS.

How St. Paul People Treated Their Unfortunate Child.

St. Paul, March 7.—[Special.]—M. L. Hutchings, agent for the Society for the Prevention of Cruelty to Animals, has just made a horrible discovery in a Polish family living seven miles down the river from St. Paul. Frank Surabinski is the father of eight children, and one of them, a 9-year-old boy, is specially unfortunate in that it has a very peculiar physical malformation. The parents made an excuse to compel it to sleep in the stable with two cows. When found by Mr. Hutchings the child was in a horribly filthy condition, with a single garment over its shoulders, but almost entirely without clothing.

He compelled the family to wash the child and had it brought to this city where it was examined by Drs. Aueler and Watson, and the unfortunate condition ascertained. The child will be sent to the city hospital and cared for. Surabinski has been arrested, and will have a hearing in the police court this afternoon.

PATRICK EGAN.

Possibility That He May be Selected as Minister to Mexico.

Washington, March 7.—[Special.]—If the quick but formidable movement which has been started to secure for Patrick Egan the appointment as minister to Mexico in the place of Gen. G. S. Briggs is successful it is more than certain that a commotion will be created on both sides of the Atlantic. That such a movement is in existence, and that its support is influential, are matters of fact. It is even said that General Harrison was not without a question prior to his departure for Washington, and that while inclined to be non-committal his expressions were such as to lead to encouragement. It is believed moreover that Secretary Blaine is favorably disposed to the Lincoln men and some go so far as to say that nothing would surprise him better than to thus flout the red flag in the face of John Bull. One man who has been doing good work up here from the Unionist press at the announcement that the ex-invincible, ex-treasurer of the Land League in Paris and president in America, had been honored with so important a diplomatic appointment at the hands of President Harrison.

It is your duty to guard against crippling any of our state institutions by a failure to provide means for the effective management of the state, and the amount placed at your disposal under this plan will, I think, be sufficient for all requirements. There are many improvements suggested, all no doubt very desirable, but at this time not absolutely essential, and in view of the depleted condition of the state treasury and the unpropitious outlook in the commercial and business world, it would be proper to defer considerations of such matters until monetary conditions are more favorable, or the necessity greater, thus saving the people from burdening that night at this time prove heavy. It is hoped that the plan outlined will meet with your approval.

OKLAHOMA.

Trouble Anticipated Unless the President Takes Prompt Action.

Chicago, March 7.—A dispatch from Oklahoma says the situation there is growing critical. Between two and three hundred men, taken up by chains, nearly all valuable land on the river bottom, from the neighborhood of Fort Reno on west to the Pottawatomie reservation east, have been taken up and held by squatters in scores. Men are sleeping in all sides and the influx of men and horses has begun. It is reported that 400 men have started. They will be met here by Col. Cole and several hundred men from Fort Reno at the border of the territory. Anxious to get out of the country open to settlement at once, and not set the date ahead, as it is feared he will do.

"THE GRAND OLD MAN."

Mr. Gladstone Will not Come to Chicago Next Month.

London, March 7.—[Special.]—Despite the greatest intention in Mr. Gladstone's dispatch on Washington's birthday to the United States, in which he promised to give the invitation to visit that city and participate in the centennial exercises next month his earnest consideration, it can be stated on authority that it will be impossible for the "grand old man" to cross the Atlantic at this time.

To an intimate associate he said yesterday that while it would give him more than ordinary pleasure to be upon the shores of the United States at a time when the American people, in the heartiness of their patriotism, were celebrating so interesting an event, yet he felt that the present condition of English politics was so critical that his presence at home was imperatively demanded. He added that even were he to follow his personal inclinations in the matter he had no doubt that that a howl would be provoked from his followers whose wishes are at all times his first consideration. At the same time Mr. Gladstone's desire to visit the United States is as strong as ever and in the absence of any change in the administration before the autumn recess it is almost certain that he is predicted in these dispatches last December, he will pay a brief visit to the United States at that time.

A Good Millionaire Dead.
Philadelphia, March 7.—Isiah V. Williams, the venerable millionaire philanthropist, died at 4 o'clock this morning.

Want to be "Gentlemen" Too.
St. Louis, March 7.—[Special.]—It is believed that the Missouri, Kansas & Texas and the Kansas City & Fort Scott roads will come into the "gentlemen's association" at the meeting here today. It is thought that to meet the views of these roads, the association will be subdivided. This would meet all objections, and make the association compact.

The Great Eastern
is now open and ready for business, having completed inventory, and has large stock of goods on hand. Ladies we call your attention to our large line of boys' and children's suits now on hand, which will be offered very cheap. Our new spring styles will begin to arrive in all departments, and our stock this season will be greater, grander and larger than we have ever shown.

M. S. BROWN & CO.
More Fair Weather.
Washington, March 7.—Indications for twenty-four hours for Minnesota and Dakota: Fair, stationary temperature variable winds.

THE WHEELS GO 'ROUND

New Government Getting Into
Good Working Order,
Ready for Business.

Secretary Windom and the
Treasury Offices He Will
Have to Fill.

Democratic Caucus to Arrange
for Representation on
Committees.

Ingalls to be President Pro
Tem. of the Senate—Won't
Kiss Babies.

WASHINGTON, March 7.—Secretaries Blaine, Proctor and Tracy came to their respective offices early this morning, but they had any idea of attending to official business they must have abandoned it when they saw the number of people awaiting them. Senators, representatives and high officers came in twos and threes; some brought friends and many ladies were among the callers. Russell Harrison with a party of Montana people made the rounds of the departments. They called on the secretaries only to pay their respects, and had no designs upon offices, Gen. Sherman and Admiral Porter were among the notables who attended impromptu receptions.

No official changes have yet been recorded in the subordinate offices, but Walker Blaine occupied the seat vacated by the department of state, and Thomas Sherman, who formerly served as Secretary Blaine's private secretary, was endeavoring to protect the secretary from the inroads of the public. Both of them have voluntarily taken hold to help smooth the way for the new administration, but in neither case has an appointment been made.

In the war department, Wm. C. Endicott, Jr., continues to fill the place of private secretary. His father, late secretary of war, called upon his successor and called on the new administration with information respecting current business.

Senators Paddock and Hawley and Representative Dorey of Nebraska, were among Secretary Proctor's callers, and they subsequently called upon Secretary Blaine and Tracy.

H. M. McHarg, paying toll of the Duluth National bank, leaves for a visit to his home, Albany, N. Y., today.

N. H. Breeze, traveling ticket agent at the Milwaukee & Lake Shore road, is in the city to-day on one of his regular visits.

The painters are at work on the front of the Hotel St. Louis restoring the portions which were blistered by the late fire.

Frank Beard, the renowned chalk talker, appears in Duluth next Monday night, his address being the second in a regular course.

Col. Turner will build an elegant residence this summer on Harrison's East End addition, overlooking the lake. New London and the city.

J. N. Johnston, of Suffolk, Co., was compelled to leave the city this morning for Ontario, having received a telegram informing him of the death of his father.

An average of \$4 is being daily spent for postage by the register of deeds. There has only been one time in the affairs of the office when there was so much recording to be done.

The Ohio coal company's local officers have received orders to proceed at once with the necessary repairs to and alterations of coal pockets on their Duluth dock. Some rapid handling of coal may be looked for.

The trial of Nick Muck, the Italian who took Paddy Cornack with a razor, took place this morning at the municipal court. The defendant was held in \$1000 bail to await the action of the grand jury at the next term of the district court.

Manager Haycock, of the Munger & Marcell open house, will have a valuable and interesting relic of the old building in his box office. It will be a highly ornamented letter press made from the fragments of other presses. Engineer Holden is preparing it.

Secretary Phelps of the chamber of commerce, has received from the Deputy Minister of Canadian railways two large maps which show the relation between the Canadian and United States system of railroads.

Vice-president Dudley, of the St. Paul & Duluth road, and a party of friends are expected to arrive here either this afternoon or evening. But little of an official nature is connected with the visit.

Sheriff Sharvey's Tower deputy is on the lookout for trouble among squatters on the Eaton-Merritt claim in 63-11. Of the numerous claimants for the land these men are as voracious and stand as good a show as anyone and as all are armed there may be trouble any day.

A complaint was lodged with the police this morning that men in Capt. Savage's saloon last night held high carnival until a late hour this morning, disturbing all people in that neighborhood. Savage was arrested this afternoon, and admitted to bond for future hearing.

R. Munn, recently appointed abstract clerk by the county commissioners of Ramsey county, in St. Paul, is a brother of James C. Munn of this city. The office is one of the most valuable appointive offices in the state, being worth about \$10,000 per year. Mr. Munn was recommended over a big list of other influential applicants.

MARINE NOTES.
Freight matters are picking up and the prospect of down bound freights is much brighter than it was a month ago. With considerable more grain in store and counting than has been looked for and the receipts of coal for the new companies to be landed here during the early part of the season, looks as if the docks would be lively from the start.

Vesselmen are anxious to see a telephone placed in the collector's office this season.

The Barker is being handsomely fitted up and will go into commission early.

KILLED IN THE MINE.

A Finlander Meets Death in a Ventilation Mine.

Tower, March 7.—[Special.]—A Finlander, named Christen, believed to be unmarried, was killed by a landslide while working in the Minnesota mine this morning. He was buried beneath a large mass of rock and earth and the body was badly bruised.

Quite a snowfall has taken place since last night and the temperature has fallen perceptibly. The snow makes the loggers more hopeful, but much colder weather is necessary to put the roads into good shape.

SABIN TO PRESIDE.
He Will be President of the Duluth & Winnipeg—A New Lumber Trust Reported.

MINNEAPOLIS, March 7.—[Special.]—It is now stated that ex-Senator D. M. Sabin will become president of the Duluth & Winnipeg railroad at an early date and will devote his time to pushing the road's lands.

In this connection the rumor of a big lumber syndicate, to control all the standing pine in the northern part of the state, is revived. It is said to be composed of Fred Weyerhaeuser, the Eau Claire lumber king, and some rich Saginaw lumbermen, together with the C. N. Nelson Lumber company, of which Mr. Sabin is a heavy stockholder, and other lumber companies. It is stated here that the accession of Sabin to the presidency means the deeper interest in the road of the C. N. Nelson people, who are tremendous holders of pine on the St. Louis and Chiquito rivers above Duluth. With A. W. Wright, of Saginaw, and his partners, who control vast pine interests on the Upper Mississippi and its tributaries and with Fred Weyerhaeuser, who also has interests northward of Duluth and in the Rainey Lake district, the formation of such a combine would be an easy matter.

A Prosperous Season.
Geo. C. Stone who is in the city until last night is firm in his belief that the present year will see greater advances in Duluth than ever before. "I believe there will be a good real estate activity and a good deal of money will come in. In the certain lines of manufacturing now under way there will be a great advance and I believe numerous new firms. I am now busy myself in the organization and formation of a manufacturing company which will be located at Duluth and will be of the greatest importance. The gathering together of iron industries here is to be of great benefit to Duluth and will be of great benefit to the people that in a comparatively few years Duluth will have more people than both Duluth and Minneapolis combined."

THE DAY IN THE CITY.
A. Swansons and John Riley were the incumbents at the municipal court this morning.

The lack of snow is bothering the contractors on the Duluth Incline railway and the deliveries are now almost nil.

H. M. McHarg, paying toll of the Duluth National bank, leaves for a visit to his home, Albany, N. Y., today.

N. H. Breeze, traveling ticket agent at the Milwaukee & Lake Shore road, is in the city to-day on one of his regular visits.

The painters are at work on the front of the Hotel St. Louis restoring the portions which were blistered by the late fire.

Frank Beard, the renowned chalk talker, appears in Duluth next Monday night, his address being the second in a regular course.

Col. Turner will build an elegant residence this summer on Harrison's East End addition, overlooking the lake. New London and the city.

J. N. Johnston, of Suffolk, Co., was compelled to leave the city this morning for Ontario, having received a telegram informing him of the death of his father.

An average of \$4 is being daily spent for postage by the register of deeds. There has only been one time in the affairs of the office when there was so much recording to be done.

The Ohio coal company's local officers have received orders to proceed at once with the necessary repairs to and alterations of coal pockets on their Duluth dock. Some rapid handling of coal may be looked for.

The trial of Nick Muck, the Italian who took Paddy Cornack with a razor, took place this morning at the municipal court. The defendant was held in \$1000 bail to await the action of the grand jury at the next term of the district court.

Manager Haycock, of the Munger & Marcell open house, will have a valuable and interesting relic of the old building in his box office. It will be a highly ornamented letter press made from the fragments of other presses. Engineer Holden is preparing it.

Secretary Phelps of the chamber of commerce, has received from the Deputy Minister of Canadian railways two large maps which show the relation between the Canadian and United States system of railroads.

Vice-president Dudley, of the St. Paul & Duluth road, and a party of friends are expected to arrive here either this afternoon or evening. But little of an official nature is connected with the visit.

Sheriff Sharvey's Tower deputy is on the lookout for trouble among squatters on the Eaton-Merritt claim in 63-11. Of the numerous claimants for the land these men are as voracious and stand as good a show as anyone and as all are armed there may be trouble any day.

BAD DEEDS OF BAD MEN.

Tennessee Mountain Desperadoes Get Worsted by Plucky Railroaders.

"White Caps" at Their Dastardly Work in Kansas and Indiana.

Northern and Union Pacific Railroad Men Fight—Deaths of Violence.

St. Louis, March 7.—Advices from East Tennessee say that a party of mountain desperadoes, headed by the notorious Chas. Watson, Leo Watson, Bill Turner and Judson Bell, attacked the camps of Hayes and Riveness, railroad contractors, at work near Cumberland Gap. The ruffians were drunk, and armed with Winchester and large Colt revolvers. They first overran the commissary department and ate or destroyed the provisions. They then went to the shanties and cabins occupied by the negro laborers and beat several of them nearly to death. By this time Hayes and Riveness had gathered a number of their men together and opened fire on the desperadoes and a pitched battle took place in which Judson Bell and Leo Watson were mortally wounded. The remainder of the gang was driven away. Next day the railroaders, with officers Ingraham and Carin riding Yellow creek and captured Chas. Watson who has terrorized Bell county for years. He was taken to Pineville jail. There are several indictments for murder against him. The railroad men have thoroughly armed themselves and say if the Kentucky authorities will back them up they will rid Yellow creek region of all the villainous outlaws who overrun it.

"WHITE CAPS."
They Cause a Woman's Death, and May Get Lynched.

WICHITA, Kansas, March 7.—Ira Campbell, of this city, moved to a farm near here Tuesday, and at 10 o'clock night was visited by White Caps. The gang consisted of a dozen men, who made their presence known by firing several rounds at the roof of the house. This done, the captain called Campbell, and told him to come out and leave the house with his family by midnight, or they would be killed. Campbell, fearing the worst, put his family in a wagon, and reached his former home here yesterday morning.

His wife had been sick for some days, and the fright and fatigue made her so much worse that she died last evening. Campbell says the party were well disguised, but he thinks he knows one member, and a warrant has been sworn out for the man's arrest.

There is much excitement here over the affair, and many threats of lynching are being made.

TRIED TO WING IT.
A Fellow Fires Two Charges of Duck Shot Into an Express Train.

CHICAGO, March 7.—The Cincinnati express, which came in on the Louisville, New Albany & Chicago road last evening, brought a badly scared lot of passengers. Two hours before reaching Chicago the train was fired upon by an unknown man, who took deliberate aim at the rear coach and sent two loads of duck shot crashing through the windows. Some of the passengers narrowly escaped serious injury. Several of the passengers were slightly cut on hands and face by broken glass, and L. S. Tanner of Chicago found shot embedded in his scalp. The railroad company has sent out officers to hunt down the miscreant if possible.

Rival Railroaders' Raids.
HELENA, Mont., March 7.—Trouble is anticipated on the Jefferson Canon branch, between the Northern Pacific workmen and those of the Union Pacific road. Last night a fight occurred, in which the Northern Pacific men captured the camp and tents, and jumped the Union Pacific location. Reinforcements of Union Pacific men were sent to be armed, have started for the scene of action, and a carload of Northern Pacific men have gone from Helena over the Montana Central road to Boulder, en route for the scene of trouble.

Thirty Stripes for a South.
HUNTINGTON, Ind., March 7.—White Caps are again at work in this county and are being joined by groups of citizens. Tuesday night at Ireland, Joseph Terpersen was taken from his home and given thirty lashes for neglecting to obey a warning to go to work or leave. Notices have been left with others.

Misling For Three Weeks.
PITTSBURGH, Pa., March 7.—Wm. Kilso, a wealthy drover of Sabine, Ohio, has been missing for three weeks and is supposed to have met with foul play. He was last seen at the East Liberty stock yards. He had over \$1000 in his possession. Kilso was 40 years of age and unmarried.

Fast Time Between Kansas City and Chicago.
Chicago, March 7.—[Special.]—The repeated efforts of the citizens of Kansas City to secure fast train service have at last been successful, and General Passenger Agent Charlton, of the Chicago & Alton, announced today that the service would be reintroduced by that road, beginning on Sunday, when a limited express will leave Kansas City at 5:30 p. m., arriving in Chicago at 8 a. m., and returning leave Chicago at 6 p. m., arriving in Kansas City at 9:30 a. m. The train will be composed of the finest Pullman vestibule palace cars, but no extra fare will be charged.

Shutout Iowa Commissioners.
CHICAGO, March 7.—[Special.]—The managers of the Western roads are in session this morning at the rooming for the purpose of considering what action should be taken in regard to Iowa interstate rates, the railroad commissioners having recently decided not to change to any important extent the schedule of rates definitively adopted. Meanwhile the shippers of Wisconsin, Minnesota and Illinois are protesting against the low interstate rates as compared with the low state rates and it is believed that the roads will be forced to make some concessions on interstate routes.

McGregor & Co. are building a 14-ton marine boiler for the steamer Dixon, the largest marine boiler ever made here.

HOW GRAIN GOES EAST.

Chicago's Futile Howls Over the Division of Traffic to Duluth.

Nothing but the Natural Result of Railroad Development and of

Duluth's Location and Increasing Power in Commercial Deals.

Chicago Times: The persistence with which grain traffic has been diverted from Chicago by discrimination in freight rates is causing a good deal of complaint in board of trade circles. To cap the climax a new deal has just been consummated between the Burlington & Missouri River and the Omaha roads whereby grain will be transported from Nebraska points to Duluth. The points in Nebraska from which these shipments will be taken include stations on the Burlington & Missouri River and the Omaha, Elkhorn & Missouri Valley roads, as the deal is understood to be the result of an understanding between the two companies that control these lines—to wit: The Chicago, Burlington & Quincy and the Chicago & Northwestern.

Owing to the cost of five cents per 100 pounds east of Duluth, by the Canadian Pacific, in connection with the Duluth, South Shore & Atlantic, large quantities of grain directly tributary to this market have already been and will continue to be hauled round Chicago in that direction. It is claimed that earnest efforts have been made to have the Eastern trunk lines put a stop to such diversion of traffic either by refusing to run English points to join in through rates that have been cut, or by reducing their rates from Chicago to the seaboard. The complaint is made that upon every occasion where an agreement has been reached by the railway companies to restore tariff rates the restoration is promptly put into effect between Chicago and the East, while one or more gateways outside of Chicago are sure to be left open to permit of the carrying of so-called "contingent" grain at less than the agreed tariff rates.

The open rates by the roads above named are in violation of no agreement. Yet this latest scheme should be promptly nipped in the bud, and it lies in the power of the trunk lines to do it. It certainly is a matter of interest to them as well as to the Chicago, Burlington & Quincy and the Chicago & Northwestern roads that the grain should go East by way of Chicago.

It is surmised that a desire to maintain local rates from Iowa points to Chicago is the reason on the part of some of the Western roads for upholding the rates from Omaha but no such excuse is available on the part of the trunk lines. It is a question, too, how long this diversion of traffic by way of Duluth will be tolerated by the Rock Island and the Chicago, Milwaukee & St. Paul, who are the principal sufferers from it. They are placed in a position by this new deal where they must choose between a very serious sacrifice of business or a reduction in the rates from Omaha and Iowa points to Chicago.

As shown by the above, Chicago is virtually indignant that it should lose the traffic now coming to Duluth. It indulges in several foolish misstatements regarding to what it is pleased to term "a diversion of traffic from its legitimate channels." The Duluth roads and carriers regard this new business as no diversion. It is simply the natural result of the building and connection of Duluth lines with Northwestern corn markets, and as is surely bound to grow, despite the fierce growls of Chicago, as Lake Michigan is to be found at its wharves tomorrow. Chicago roads and corn shippers, who now find their business less complete than as they have always had the trade they could continue to control it. Did Chicago insist to any such appeal when she ruined the Wabash road and appropriated a traffic theretofore Toledo's? The lines of Chicago, the Chicago & Duluth, now they are Duluth's, and Duluth is disposed to take advantage of them. In fact, she could not help it if she would. It is not a "round-about" and "back-door" route, as stated in Chicago. Omaha and the corn country is nearer the East via Duluth than via Chicago, strange as it may seem to that city. Actual measurements prove this, and the "Banning line" is doing its work.

In these days of interstate commission rule a charge of cutting rates is a serious matter. Officials of railroads interested in this corn traffic positively deny that they are cutting rates, and give explanation as stated above. As to the Canadian Pacific and Duluth, South Shore & Atlantic cutting on eastern shipments, they have no reason to do so, as nearly all this corn will be shipped by water and not by these or any other roads.

It Interests Duluth.
The proposed game law which is now being considered by the legislature restricts the killing of game to the following months: Woodcock, July 10 to Oct. 30; prairie chicken, Sept. 1 to Oct. 30; sharp-tailed grouse, Sept. 1 to Oct. 30; wild duck, wild geese, brant or aquatic fowl, Sept. 15 to Dec. 31; elk, moose, deer, buck, doe or fawn, Nov. 1 to 30. These alterations are made so that the law will conform with the Wisconsin game laws.

A Damaged Engine.
Wednesday night's outgoing Omaha passenger train when approaching a high trestle a few miles out of the city, encountered a horse walking across the bridge. The engineer could not stop his train so the horse was struck and flung off the trestle to the ground below killing him instantly. The train, fortunately, was not delayed or damaged.

Booth Brightening Into Hope.
And hope into certainty, is the pleasing transition through which the case of the nervous, dyspeptic invalid passes who tries a course of Hostetter's Stomach Bitters, which is also innumerable and inflexible. Increased vitality, again in weight, tranquility of the nerves, sound appetite and sleep are among the blessings which it is within the beneficent power of this medicine to confer, and it is not surprising that after acquiring this new glory of health the grateful sick should sometimes utter their grateful praises of the Bitters in terms bordering on extravagance. "Out of the fulness of the heart the mouth speaketh," and the proprietors of Hostetter's Stomach Bitters have sometimes been obliged to suppress these eulogiums lest they should be accused of blowing their own trumpet too loudly. For constipation, biliousness, kidney complaint and indigestion, the Bitters is also a deservedly popular remedy.

Official Proceedings.

COUNCIL CHAMBER,
Duluth, Minn., March 6, 1889.
Adjourned session.

Present—Ald. Howard, Dingwall, Seville, Thomas, Costello, Kugler, London, Davis, Armstrong, Kennedy, Swanson and Mr. President—12.

On motion of Ald. Costello the reading of the proceedings of the last meeting of the council was dispensed with.

Petitions and Communications.
The board of fire commissioners submitted the following report of the fire department for the month of February, 1889, as follows:

Total..... \$1,164.00
Miscellaneous expenses..... 630.35
Total..... \$1,794.35

Report received and ordered filed.

The board of fire commissioners returned the communication regarding the charges against Wolf & Traux and John S. Wolf & Co. for the breaking of fire alarm wires and recommended that the same be referred to Wolf & Traux, and that the amount be refunded to the city.

Communication laid upon the table.

A communication was received from the board of fire commissioners and returning the petition of W. H. H. Stowell, et al., concerning the loss of the hotel and the fire department's responsibility for the same.

Report received and ordered filed.

Chief of Police Doran submitted his annual report of the business transacted in connection with the police department of the city of Duluth for the past year, also showing the number of men on patrol and other data of interest.

Report received and ordered filed.

The Board of Fire Commissioners submitted the following report of the fire department for the month of February, 1889, as follows:

Total..... \$1,164.00
Miscellaneous expenses..... 630.35
Total..... \$1,794.35

Report received and ordered filed.

Reports of Standing Committees.
STREETS, ALLEYS AND BRIDGES.

To the President and Common Council of the City of Duluth:

Your committee to whom was referred the communication from the Board of Public Works in relation to the proposed widening of the street from Superior street to N. 10th street, and constructing a storm sewer in said street, would most respectfully report that they have considered the same, and recommend that the communication be referred to the Board of Public Works for their consideration.

J. J. COSTELLO,
Chairman Committee.
R. C. KENNEDY,
R. C. LOUGHEE.

On motion of Ald. Kugler the report was received and ordered.

To the President and Common Council of the City of Duluth:

By Ald. London—
Resolved, That the Board of Fire Commissioners of the city of Duluth be and are hereby instructed and directed to notify the owners or agents of the buildings Nos. 122 and 124 West Superior street, and building No. 223 West Superior street, to remove the same to the city, and that if the same are not removed within the time designated then the Board of Public Works be directed to cause the same to be removed at the expense of the property.

Ald. Kennedy moved the adoption of the resolution, and the resolution was declared adopted. Ayes—12. Nays—None.

Yea—Ald. Howard, Dingwall, Seville, Thomas, Costello, Kugler, London, Davis, Armstrong, Kennedy, Swanson and Mr. President—12.

The chairman of the various committees reported back all matters and referred to the table, which reports were adopted.

By Ald. London—
Resolved, That the thanks of this council be tendered to the Hon. B. C. Kennedy for the courtesy, ability and fairness with which he has presided over the council for the past year.

Ald. Swanson moved the adoption of the resolution, and the resolution was declared adopted upon the following vote by the vice-president of the council:

Yea—Ald. Howard, Dingwall, Seville, Thomas, Costello, Kugler, London, Davis, Armstrong, Kennedy and Swanson.

Nays—None.

No further business appearing, on motion of Ald. Armstrong the council adjourned sine die.

CHAS. E. BUDEN,
City Clerk.

ORGANIZATION OF NEW COUNCIL.
The city clerk then administered the oath of office to the following members of the new council:

Asa Dingley, alderman-elect First ward.
J. J. Costello, " Second ward.
J. J. Costello, " Third ward.
G. W. Davis, " Fourth ward.
R. C. Kennedy, " Fifth ward.
R. C. Kennedy, " Sixth ward.

The clerk called the roll, and the following named answered to the call:

Asa Dingley, alderman-elect First ward.
J. J. Costello, " Second ward.
J. J. Costello, " Third ward.
G. W. Davis, " Fourth ward.
R. C. Kennedy, " Fifth ward.
R. C. Kennedy, " Sixth ward.

The clerk called the roll, and the following named answered to the call:

Asa Dingley, alderman-elect First ward.
J. J. Costello, " Second ward.
J. J. Costello, " Third ward.
G. W. Davis, " Fourth ward.
R. C. Kennedy, " Fifth ward.
R. C. Kennedy, " Sixth ward.

The clerk called the roll, and the following named answered to the call:

Asa Dingley, alderman-elect First ward.
J. J. Costello, " Second ward.
J. J. Costello, " Third ward.
G. W. Davis, " Fourth ward.
R. C. Kennedy, " Fifth ward.
R. C. Kennedy, " Sixth ward.

The clerk called the roll, and the following named answered to the call:

Asa Dingley, alderman-elect First ward.
J. J. Costello, " Second ward.
J. J. Costello, " Third ward.
G. W. Davis, " Fourth ward.
R. C. Kennedy, " Fifth ward.
R. C. Kennedy, " Sixth ward.

The clerk called the roll, and the following named answered to the call:

Asa Dingley, alderman-elect First ward.
J. J. Costello, " Second ward.
J. J. Costello, " Third ward.
G. W. Davis, " Fourth ward.
R. C. Kennedy, " Fifth ward.
R. C. Kennedy, " Sixth ward.

The clerk called the roll, and the following named answered to the call:

Asa Dingley, alderman-elect First ward.
J. J. Costello, " Second ward.
J. J. Costello, " Third ward.
G. W. Davis, " Fourth ward.
R. C. Kennedy, " Fifth ward.

J. J. Costello, " Third ward.
G. W. Davis, " Fourth ward.
R. C. Kennedy, " Fifth ward.
R. C. Kennedy, " Sixth ward.

to prevent the spread of infectious diseases. This prevention is taken by other cities at all times where vessels are constantly landing passengers of all classes.

It is possible assistance consistent with public duty and economy should be rendered to St. Mary's hospital by the city.

These institutions have been and are still of almost insupportable value to the city, and to the city, caring as they do for the sick and the infirm, and often without charge, they are public benefactors and consequently entitled to public assistance and partial support. The same may well be said of other charitable institutions in the city.

Stairs should be taken to have the gas and water company construct a new reservoir to take the effluent of the present one. The one now in use besides being unclean and consequently insalubrious, is so small to meet the present demands and is weak and liable to burst when sufficiently full to furnish the pressure necessary for protection from fire.

In addition to this there is urgent need of a reservoir above the level of the present one. It should be located far enough to secure pure water and protection from contamination by effluent from the city. There is at present no provision from the waterworks building on the hill above the lower side of Third street while the increase in the population and number of residences in that locality demands provision as aforesaid.

At present water pipe gates are several places at which often causes unnecessary inconvenience to a large number of citizens and the city is obliged to employ men to open these gates should be placed at every place where they are used. It should be necessary to shut off the water for a time, as it is inconvenient and loss of property entailed thereby.

I suggest that the time has come when that part of the city above Superior street should be enclosed by a wall, and the population and growth of the city in that direction will justify you in ordering the wall built. I therefore recommend that you take steps to have the construction of an early date of a tract extending as far up as North Street, and that the wall be designated by your honorable body.

I suggest that the time has come when that part of the city above Superior street should be enclosed by a wall, and the population and growth of the city in that direction will justify you in ordering the wall built. I therefore recommend that you take steps to have the construction of an early date of a tract extending as far up as North Street, and that the wall be designated by your honorable body.

LOCAL MONEY EASY.

Duluth Bankers on the Present Situation—Money Plenty and Easy.

Lots of Cash to be Had as Low as 6 Per Cent and Even Offered at 5.

There never was a time in the history of Duluth when the prospects for a lively season in all branches of business were as good as at present. Not only has the month just closed shown a large increase in real estate sales over the preceding thirty days, but the money market is easier than it has been at any time during the past year. A prominent realty broker, in a conversation with a Herald reporter regarding the prospects for an active year, said:

"The loan, easy feeling in the Eastern money market is beginning to make itself felt here, and I look to see 1889 close with large amounts of that money invested in Duluth real estate, and put into manufacturing and other business ventures. During February, I sold \$100,000 worth of property, all of it to Eastern parties, and \$75,000 of this was cash. All the real estate men are receiving plenty of letters asking the openings for good, paying investments. And before the year is ended I look to see some big deals made. Loan agents tell me there is a good demand for money, while an unfailing supply pours in from the east."

Said Cashier Hunter of the American Exchange: "Money is very easy. Perhaps owing to the small amount of wheat in store here at present it is easier than it has been for years. We have been able to loan all our money on deposit, with what comes in outside, but we have no eastern money, having enough to supply the demand. Rates are about as last year, 8 to 10 per cent. I hear that money is loaning in Chicago at 2 1/2 per cent, 1 1/2 per cent below the legal rate."

"There's a good, healthy demand for money," said Manager Patne of Paine & Lathrop. "Money is far from being tight, much easier than last summer. Rates are as usual."

All that S. A. Chandler, the loan broker, had to say was: "There's Eastern money here and lots of it. Loans are being made at less than 8 per cent, that is, loans on long time, while short loans are at rates lower than ever before."

Cashier Ware, of the Duluth National, was found busy at work on a most favorable annual bank statement, but he had time enough to say: "Our business is fair, with a good local demand for money. The loss of wheat has a great deal to do with it. It shows that rates are about the average, 8 to 10 per cent. We do not use much Eastern money, having enough to supply the local call. But I hear that money was never so easy before in New York and the East."

H. H. Bell was as busy and bustling as ever, but rested for a few moments, while he gave some valuable hints to a Herald reporter. "With us it is much better. There is an easier feeling among Eastern money holders, and lots of it is coming toward Duluth. There is a big local demand, and everything points to prosperity."

Cashier Smith, of the Merchants National, thought the outlook was not better. "It will be a remarkably good season for Duluth. Demands for money are many, and rates are reasonable. Eastern money is easy, and lots of it will come Westward this year. We will get our share here in Duluth."

At the West End T. O. Hall, of Hall Bros. & Co., Stewart & Britts and Cashier Siverts, of Bell's West End bank, report the demand for money as brisk, at fair rates of interest. They expect an unusually heavy business this season. "We have abundance of money," says W. E. Lewis, manager of the loan business of Cochran & Walsh. "There is more money on hand than we can dispose of and at low rates. It shows how confident the East is becoming in Duluth and how free money is. For all good security money is loaned at 6 per cent on long time and that is less than it has ever been here before." Several instances have occurred of late where money on building improvements has been offered to gilt-edged Duluth security at the very low figure of 5 per cent. It is 5 and 6 per cent money that has built up St. Paul and Kansas City and it is the inauguration of a new and pushing era of development when it is reached here.

OVER THE BAY.

A Big Budget of News—Dr. McKay's Skelton—A Loan Company.

W. M. Allen is wearing badge No. 1 Superior police and is stationed at the Union depot.

A. Abraham is at home again.

I. S. Wilson, of the Lake Superior Oil company, went out on last night's Omaha for St. Paul.

M. C. Burke is in Minneapolis for a few days.

The ladies of the Presbyterian church give a reception at the residence of E. H. Brown tomorrow evening. Lunch will be served and every one is invited.

Rev. Simpson held services in the Episcopal chapel on Tower avenue last evening.

Howard Thomas and wife left this afternoon for a trip east and expect to be gone about a month. They will visit all the large eastern cities, spending a short time in Scranton with the chief engineer Mattes.

Carl Wirth and Rev. C. H. Myers have returned from their tour of inspection of churches and have secured many valuable suggestions, which will be incorporated in the plans for the new Methodist church.

Dr. McKay's lecture. The chamber of commerce meeting last evening was well attended and the time was spent in listening to Dr. McKay's lecture on his new map, showing the analogy between the positions of the great chain of lakes with the vital organs of the human body; also showing that the present railway and commercial development of the country followed almost identically the course of the main arteries of the human system. He illustrated the lecture with an anatomical chart of the circulation and the digestive organs, and another map of the United States with the outline of the human form stretched across the continent, its head near the Pacific coast and its feet resting on England and Spain. The wheat and corn belt represented the lungs, Lake Superior the heart, Lakes

Michigan, Huron, Erie and Ontario, with the St. Lawrence river and gulf, the digestive organs, liver, kidneys, etc. The ideas are unique and striking.

A Financial Institution. Articles of incorporation of the Superior & Duluth Loan and Debenture company have been filed. Incorporators are P. E. Bradshaw, F. W. Downer, Jr., William B. Banks, R. J. Vennys, Superior; and Francis H. Weeks and James Roosevelt, of New York.

The first board of directors will be F. H. Weeks, R. L. Bolkinap, James Roosevelt and Warden Van Norden of New York; R. J. Vennys, P. E. Bradshaw, William B. Banks, Francis Lovey and Frank Astrander, of West Superior. The officers will be: R. L. Bolkinap, president; P. E. Bradshaw, vice-president; W. B. Banks, managing director; W. H. Slack, treasurer; W. F. Downer, Jr., secretary and attorney. The list of stockholders is one which insures the stability of the institution, and includes, besides those above-mentioned, such men as Donald McKay of Vermilion, Co. bankers; Frederick W. Downer, Charles H. Leland, president of the Sixth National bank; Robert Scott, president of the Bank of the Metropolis; A. A. Brinkerhoff, late Brinkerhoff, Turner & Co.; W. E. Strong, of Work, Strong & Co., stock brokers; Dr. Thomas E. Salterthwaite; John L. Ricker, of John L. Ricker & Co., wholesale druggists; and many other prominent New Yorkers; R. L. Banks, Albany, N. Y. The company has a capital of \$200,000 and will loan on mortgage, buy and sell notes and other commercial paper. Its charter also grants the privilege of buying and selling real estate.

OCCIDENTAL.

Matters of Interest at the West End and West Duluth.

The Ladies' Aid society will entertain the new Congregational church, this evening.

Manager Cochran commenced placing the engine and boiler at the Adams factory yesterday.

W. S. Yeager sold a lot on Second avenue yesterday.

The contract will soon be let for clearing the right of way of the incline railroad.

A. B. Spencer opened his blacksmith shop today. Mr. Spencer comes from Niagara Falls and is said to be a very fine workman.

The first and second pair of roughers, two pair of shears and one set of pinions have arrived at the car works, as a part of the ten-inch train of rolls.

A pleasant surprise party was held at Mr. Armstrong's residence, Tuesday, Wednesday evening.

The officers and directors of the L. G. G. association will hold a meeting at the Congregational church this evening.

Important committees are to be selected, and all are requested to be present.

Palmer Bros. moved their pile driver to the Adams factory this morning preparatory to driving piles for the dry kiln.

WEST END NEWS.

Sergeant Clements is confined to the house with a sprained ankle.

Bradley & Hanford are shipping lumber to Dakota, Wisconsin and other active.

Knutte Moen is building a two-story house on Rice's Point.

Work on the Imperial mill will be suspended until Secretary Church gets back from the East.

C. D. Woodruff is replacing the boilers running at the Adams factory.

Gray's mill, which has been shut down for a few days, commenced running again today.

Workmen are excavating for a new building to be erected on lot 361 block 1, Superior street. The building will be 25x50, two stories high, with basements, costing \$8000.

THE PUBLIC.

This morning the Minnesota Transfer & Terminal company elected its officers for the year.

Logs are still being hauled on the Fond du Lac reserve and on a number of local logging contracts where they remain two or three inches of snow.

On the north shore jobs the trouble is greatest.

Lately we find Cornaby's art gallery full of customers every time we call. This looks well for Duluth and shows which way the tide is drifting.

Special Car "A."

Yesterday afternoon Master Mechanic Greutinger of the Duluth & Iron Range, arrived in solitary state in the new business car A, just built by the Pullmans for trading. It is a very handsome car of extra length, finished in old oak and olive plush, with stateroom accommodation for eleven people and with observation room, kitchen and the room of a pay car. No space is lost and it is fitted up in comfort and useful style. It will be used by the road itself as a business car, and by parties.

Dentist. Dr. C. G. Von Suessemich, the dentist, desires to announce to the people of Duluth that he is now located at Nos. 9 and 11 West Superior street, over Silberstein & Bondy's. Gold work a specialty. Vitellized air administered for the painless extraction of teeth. Any one in need of the aid of a dentist would do well to call on him. All work warranted.

LEWIS & MCNAUL-DULUTH AND SUPERIOR.

Cheap Lots in Duluth, West Superior and West Duluth. Both business and residence lots in all parts of both towns and all additions at lowest prices with easy terms.

Cheap Land Near West Superior. In lots of five, ten, twenty and forty acres. It all lies beautifully without a single stone on it. It is on line of a planned trunk line railroad and can be plotted very soon.

To Plot at West Duluth. Two eighty tracts that lie finely, nice view. Lots can be sold quickly if plotted. Price low and terms easy.

Near the New Custom House in Duluth. We have the best, four forty acre lots left at the head of the lake. They lie within 100 rods of the new custom house. Prices so low that there is a fortune in each forty by platting this spring.

On Hammond Avenue West Superior. The best and cheapest forty acre lot near West Superior 80 rods on Hammond avenue, nice to plat this spring.

A Snag. One of the best double corners in West Superior, good building that rents for \$75 per month, and room for four more. Owner must have some money. Lewis & McNair, Duluth and Superior. There will be a social at Ingall's this evening, after dancing class given by Miss STRUCKMEYER.

A FLOUR TRUST FORMED.

The Local Market Today Almost Totally Devoid of Interest.

Money and Stocks—The General Wheat Situation—Board Notes.

"It is a genius who can get inspiration out of the Duluth wheat market today," said a trader this noon. The market seems to lack outside support and inside confidence, consequently it lacks business, and almost nothing was done at this day's session. It ruled very dull with no pretense either to buy or sell, and very little wheat was out. What little business comes in is buying orders is hard to carry out. From the East came the news of 12 loads—10,000 bushels—taken for export, and Chicago advanced 1/4 cent. The market may corner as a mere whiff of the air, and dangerous long or short interests are now disbelieved there. This a close is taken for granted.

Here this morning there was no business other than May, which opened very late at 1c up and 1/4, after buyers had come gradually up to that figure. It advanced to 1 1/8, with the close with the close. Cash wheat was dead. No April is nominally 1 1/4, while a northern is 1 1/4, all grades being a cent up. June closed up at 1 1/8; July closed 2 cents under May at 1 1/2; but there were no trades here.

Corn was firm but nothing done. For May 3 3/8 was bid, 1/2 higher than yesterday.

Curt Notes. The Burlington and Missouri and the Omaha have consummated a deal whereby corn will be transported from Nebraska to Duluth via Omaha. This is an additional connection and will render the market and railroads more able than before to battle with conflicting Chicago interests.

At St. Paul, Minn., it is understood that nearly 10,000 cars of corn will have been brought to Duluth before the corn shipping season ends.

Receipts were today were 25,000 bushels, corn 32,880. Shipments nothing. On track are 41 cars wheat, 29 of which are Oregon, and 52 cars corn.

Reported from New York this forenoon that twelve boat loads were taken today for export. This was about the only piece of news that reached Duluth.

But business does not believe the Fairbank holdings, which it puts at 50,000 bushels, point to a low price. It is not this year, and says that no body doubts there would 100,000 bushels come to Duluth this year, if offered, or to break a corner.

The Fairbank baguio is, then, only a baguio.

MILLERS IN SESSION.

Secret Conclave of Flour Millers in St. Louis. A Combine on Outpost.

St. Louis, March 7.—For the past three days the millers of winter wheat states have been in secret session here for the purpose of forming a combine to control the flour output.

Participants are from Minnesota, Kansas, Iowa, Arkansas, Texas, Illinois, Tennessee, Missouri and Wisconsin were here and were joined today by others of the Southeastern states. They deny that they have formed any trust and while this is true, in the light that profits will not be divided, but only earned, it is a fact that a combine has been formed to control the flour market. The same authority has it that the winter wheat market is also in the hands of a combine, and that an attempt will be made to manipulate it. A rule regarding commissions on flour was also adopted. The combine has also been formed, and the rule provides that not more than five cents or five per cent of the cost of the flour shall be paid for freight. The credit system has also been abused, bids being dated as much as six months ahead by some mills.

MONEY AND STOCKS.

A Weak Stock Market With St. Paul and the Coal Stocks Leading.

New York, March 7, noon.—Money on call is easy at 1 1/2; bar silver, 92 1/2. The stock market is quiet, especially the Duluth & Iron Range, which is a feature of the stock market after 10 o'clock, and while the entire list was heavy to weak, the last two hours were the leaders in the decline, each losing 1/2 on a comparatively active trading. C. C. C. Coal, however, was specially weak and on very light transactions dropped 1 1/2. The weakness continued until the end of the noon hour though there was no further special feature and at noon the market was active and weak at about the opening prices.

The following are today's quotations on the New York stock exchange:

U. S. 4s, 120 1/2; 5s, 121 1/2; 6s, 122 1/2; 7s, 123 1/2; 8s, 124 1/2; 9s, 125 1/2; 10s, 126 1/2; 11s, 127 1/2; 12s, 128 1/2; 13s, 129 1/2; 14s, 130 1/2; 15s, 131 1/2; 16s, 132 1/2; 17s, 133 1/2; 18s, 134 1/2; THE ZENITH CITY HOLDS HER OWN.

I will meet any competition
in my line, no matter where
from; New York, Chicago,
Minneapolis or St. Paul.

ANDREW JACKSON,
JEWELER.

WE GIVE THEM AWAY!
THE
CELEBRATED MASCOT WATCH.
Stem Winder and Setter FREE! With
EVERY \$15.00 SUIT OR OVER,
WITHOUT MONEY AND WITHOUT PRICE.

COMMENCING MARCH 5th, and continuing until the entire lot is given
away, we present to every customer buying a \$15 SUIT OR OVER, or buying a \$15
SPRING OVERCOAT, a handsome STEM WINDER and SETTER
WATCH, which must be asked for at time of purchase, or will not be given.

The BIG DULUTH.

DULUTH a la PARIS!

LADIES'

PARIS DRESS GOODS,

FANS and HANDKERCHIEFS.

To say that they are LOVELY does not express their LOVELI-
NESS.

COMMENCING WITH TODAY

We will be in readiness to show you the LARGEST ASSORT-
MENT, PRETTIEST STYLES, and FINEST CLASS of

Dress Patterns, Dress Patterns,
Dress Patterns, Dress Patterns,

Ever Shown outside of Chicago.

REMEMBER we have but ONE SUIT OF EACH COLOR,
and you are sure of an Exclusive Style. Our FAN and HAND-
KERCHIEF selection cannot be described.

CALL AND SEE THEM.

NOTE---Dress Goods shown by us last fall are now offered
by other houses as new styles.

SILBERSTEIN & BONDY,
9 & 11 W. Superior Street.

SHALL RIGHT PREVAIL?

Or Shall the Jealousy of the
Southern Districts Prevent
Reapportionment?

Senator Whiteman Succeeds in
Getting Another Judge
For Duluth.

Bill Affecting the Agricultural
College--Other Matters
Considered.

St. Paul, March 8.—[Special.]—There was a meeting of the joint reapportionment committee last night, and a row was the result. The committee met to hear the report of the sub-committee appointed to draft a bill. The bill was submitted, and the fight began on its adoption. As far as the Duluth district is concerned, the report was the same as that given a few days ago in the Herald—one senator and five representatives, or two senators and four representatives. Senator Whiteman said that he and Speaker Graves had agreed that the district should be divided, and given two senators and four representatives. The committee stated that the wishes of the representatives in this particular would be recognized.

The real fight came on the motion of H. F. Stevens who moved that the southern part of the state three more representatives, not an act of justice but because he believed that reapportionment would not be carried unless this plan was adopted. Mr. Stevens was met by Forty-Fourth district given an extra member, and so also did Senator White- man claim one for the Forty-Sixth. Finally all their amendments were withdrawn and Mr. Stevens voted down. A motion was made to adopt the sub-committee report, but before it could be voted upon an adjournment was taken. Mr. Stevens left the committee room in disgust after his motion was lost, stating that there was no use in trying to reapportion, that the southern districts of the state would not consent to such a radical change as the sub-committee proposed. As a result of the meeting, everybody is fighting everybody else. The basis agreed upon, and the whole matter is in a decidedly mixed state.

More women were present in the house yesterday than has been at any other time since the legislature com- menced. The people of Duluth and vicinity, and others bore the appearance of the traditional blue-stocking. They were there for the purpose of listening to the talk on temperance which was set for 11 o'clock. While the prohibition discus- sion was going on in the house, Senator Schell was making drunkenness a crime and punishing the drunkard passed the senate. The people of Duluth and vicinity, and others bore the appearance of the traditional blue-stocking. They were there for the purpose of listening to the talk on temperance which was set for 11 o'clock. While the prohibition discus- sion was going on in the house, Senator Schell was making drunkenness a crime and punishing the drunkard passed the senate.

AGRICULTURAL COLLEGE.

A Bill to Take it Out of the State University.
St. Paul, March 8.—The Farmers Alliance sticks out in every line of a bill introduced in the senate yesterday by Mr. Hixon, providing for the entire re- organization of the state Agricultural college. The bill proposes to take the management of a board, to be known as the agricultural college board, of which the governor and college president shall be members ex-officio. The college is to be located in the bill—R. A. Castello, of Duluth, is named for St. Louis county.

The mechanics lien law was discussed again last night by the house judiciary committee. It was decided to report the bill as amended with a favorable recom- mendation. It is to go into effect after July 1st. Sections 20 and 21 were struck out of the original bill, and a new bill is to be prepared on the same lines, giving a lien to persons making re- pairs on personal property, and also to common carriers and livery and boarding stables and owners of pastures.

TODAY'S DOINGS.

Protecting Against the Cattle Bill.—The In- spection of Cattle.
St. Paul, March 8.—Senator Halver- son sent up the first petition in the upper house of the state legislature this morning, and it protested against the passage of the dairy bill. Senator Ed- wards introduced another prison bill, which asks for an appropriation of \$25,000 for the purchase of tools in furnish- ing the plant for the employment of the convicts under the state-account system. The bill provides that immediately after its passage it shall be the duty of the governor, the state inspectors and the wardens of the state prison to serve notices upon the present contractors.

The bill was sent to the prison com- mittee. Senator Schell sent up an important bill relating to the protection of the public health by providing for inspection before slaughter of cattle, sheep and swine. It makes it the duty of local boards of health to appoint inspectors to hold office for one year. The health boards are to be composed of cer- tificates to be issued by such inspectors and the fees to be paid them. It is the duty of the inspectors to inspect all cat- tle, sheep and swine slaughtered within 24 hours before the slaughter, and if found in proper condition issue a cer- tificate.

Among the petitions presented in the house this morning was one signed by 164 persons connected with wholesale houses of St. Paul, asking for the pas- sage of the bills relating to railroad and warehouse commission. H. F. Stevens introduced a resolution providing that the house hold sessions from 10 o'clock in the morning until 4 o'clock in the afternoon, with a recess from 12:30 until 2, on every legislative day for the remainder of the session. Mr. Fleming gave notice of debate on the matter will be considered tomorrow.

afternoon, with a recess from 12:30 until 2, on every legislative day for the remainder of the session. Mr. Fleming gave notice of debate on the matter will be considered tomorrow.

The Judge at Last Secured.
St. Paul, March 8.—The most stubborn fight in the senate this session has been over a bill introduced by Senator Whiteman, creating an additional judge for the district of which Duluth is the center. It was introduced in the early days of the session, and its career has been of the most stormy description. The bill has been referred and re-referred, and finally passed. The vote was twenty-seven yeas and twelve nays. The bill now goes to the house, where more effective opposition is anticipated.

Prohibition Bill Defeated.
St. Paul, March 8.—The debate on the prohibition bill yesterday laid open a wide waste of set speeches, uttered mostly for the benefit of the speaker's constituent. The bill was defeated by a vote of 55 to 39. There were three absentees.

"WHERE THOU GOEST."

How a Plucky West Virginian Wife Sought Her Husband.
CINCINNATI, O., March 8.—Mrs. Sallie Sayres, of Huntington, W. Va., wife of a brakeman, left her home day before yesterday at 11 o'clock in the hope that in that manner she could make her way without money to join her husband, who had obtained work at Marietta, Mo.

At San Diego the streets are filled with strangers outgiving for the mines, and with miners and pack mules loaded with miners' outfit. An average of 600 men a day have left for the mines for the last four days, and today the number was much larger than that. Waiters at the hotels and restaurants have largely left, and two-thirds of the furniture of the city has been taken away. The best indication regarding the value of the mines is that no one has returned except the "grub" men, who are on the "stake." The telegraphers have also joined the prospectors. Eight hundred men were camped at the Santa Ana last night waiting clearance from the custom house. Escondido is practically deserted by men.

CHICAGO'S CENTENNIAL.

How the Garden City Proposes to Honor the Constitution.
Chicago, March 8.—[Special.]—Within the next few days the mayors of all the principal cities of the West, as well as the pastors of the various churches, will receive a circular from the Union League club of this city, inviting them to join in the celebration next month of the centennial of the signing of the constitution. At today's meeting of the committee of sixty on the general observance of the centennial day in the West, Mr. Thomas A. Bryan presiding, it was reported that the invitations were being forwarded as rapidly as possible, and that special preachers throughout the West had been secured for the celebration. The program in the region for this year in order that the various features of the celebration should be concurrent. This program so far as arranged provides for services in the churches from 10 to 10:30 a. m., a gathering of scholars in all the public schools with music, patriotic speeches and presenta- tions of the citizens in four of the larger halls in the afternoon and display of fireworks in half a dozen places at night. The day is to be a general holiday, all business being entirely suspended. The celebration in Chicago is estimated to cost \$100,000, the medals alone being estimated at \$10,000 and the fireworks at \$15,000.

BIG RAILROAD DEAL.

Expected Union of the Bee and Big Four Lines.
Chicago, March 8.—A local paper says one of the Vanderbilt party talking last night about the union of the Bee line and the Big Four, systems summer the situation up as follows: "It is reported that the Vanderbilts have recently purchased about 15,000 shares of the Bee line stock, and are now averaging 100. This merely gave a minority interest, but their purpose is to control the line. The Bee line is the Chesapeake and Ohio, now controlled by C. P. Huntington, and the Big Four being con- trolled by Mr. Huntington. They are Morgan & Co., George B. Bliss, and M. J. Ingalls. To get the Chesapeake and Ohio to get the Bee line, which feeds it. Hence the deal now consummated. It will be extended to the Indianapolis & St. Louis road, which has long been a burden to the Bee line, and the annual deficit, amounting to several hundred thousand dollars, and the new line that will be taken into the system will be the Cleveland, St. Louis and Chicago City. The new line is under construction. Mr. Ingalls will be president of the consolidated companies."

OKLAHOMA.

Would-be Settlers Will Wait Thirty Days for President's Proclamation.
Chicago, March 8.—A dispatch from Wichita, Kansas, says: "T. Blake, a merchant of Purcell, I. T., arrived here last night and said that trains are still bringing there from 100 to 150 persons. Wednesday 100 families are coming from Michigan. Many are in destitute circumstances. They say they are willing to wait thirty days longer, and if there is then no proclamation they will enter for their rights, as well risk losing their lives as their rights, and think that no one will attempt to remove them."

A train of 100 red wagons loaded with provisions left Kiowa yesterday. They go to the western part of the country. The greatest fear at present felt by the people on that line is that the boomers will become impatient and in a body move upon their claims. They have stake out, and that a conflict with the soldiers will result. There is no likelihood of an invasion at present, as Hill and Cole the acknowledged leaders both think it best in view of late developments to wait for a few weeks at least.

Who For President?

Chicago, March 8.—[Special.]—There is a good deal of speculation in Irish circles in this city regarding the success of John Fitzgerald as president of the Irish Land League of America. Mr. Fitzgerald himself is very anxious that Hon. Alexander Sullivan should once more take the helm, but that he is out of public life for good, that he is doubtful if he can attend the convention, and that having done his share of the work he has a right to be left alone. Hereafter he says anyone who mentions his name in connection with the office will be put forth to induce Mr. Fitz- gerald to serve another term while John Boyle O'Reilly is also spoken of with favor.

A large quantity of the Lehigh Co.'s crushed coke is being burned in Duluth. It is stated that the company will put in fifty more ovens this year.

THE MODERN EL DORADO

Great Rush to the Gold Fields
Just Discovered in Lower
California.

San Diego Deserted, Even by
the Hotel Waiters, for
the Mines.

A Thousand Men There Now,
and 500 Daily Arriving--
Rich Finds.

LOS ANGELES, Cal. March 8.—The gold discoveries in Lower California have created intense excitement in every town in the southern part of the state. The Santa Clara district, where the crowds are rushing is about 150 miles south of San Diego and 40 miles west of Escondido. All along the line thousands are en route to the scene of the excitement. At San Diego the streets are filled with strangers outgiving for the mines, and with miners and pack mules loaded with miners' outfit. An average of 600 men a day have left for the mines for the last four days, and today the number was much larger than that. Waiters at the hotels and restaurants have largely left, and two-thirds of the furniture of the city has been taken away. The best indication regarding the value of the mines is that no one has returned except the "grub" men, who are on the "stake." The telegraphers have also joined the prospectors. Eight hundred men were camped at the Santa Ana last night waiting clearance from the custom house. Escondido is practically deserted by men.

A REPORT DENIED.

The Sabin Rumor, Published Last Night Denied--Started for Political Effect.
St. Paul, March 8.—[Special.]—W. H. Fisher, vice-president and general manager of the Duluth & Winnipeg road, speaks as follows with regard to the statement that ex-Senator Sabin is to be the president of that road: "There is not a particle of truth in the rumor. Senator Sabin has not a dollar's interest in the road, and is not connected with it in any way. The president is A. Wright of Alma, Mich. I am credibly informed that this report came from H. G. Stone, and was sent out for the purpose of bringing the enemies of Sabin round to the opposition of the bill now pending in the legislature. But Sabin has no connection with the road, what he does and the report is utterly false."

F. C. Stone, of Saginaw, who is associated with Messrs. Wright, Wells and others in their plan to lead operations in the northwest of Duluth and in their Duluth enterprises, read the telegram from Minneapolis published in the Herald last night with a good deal of surprise and indignation. He left Duluth for Saginaw last night and but little could be obtained from him on the subject. From a gentleman closely associated with Mr. Stone, and with Messrs. Wright and Wells as well, in business operations, the following opinions were gathered: "Mr. Sabin has never been offered the presidency of the Duluth & Winnipeg road, and never, in any human probability, will be. If any change is to be made in the presidency of the road now held by Mr. Wright, it will be to a gentleman now in the enterprise and not to Sabin. As your dispatch above printed today indicates I believe the report to have first originated in the minds of enemies of the road. It is the height of absurdity to talk of Sabin's being needed to push bonds of a road in which such men as Casey, Wright and other Duluth & Winnipeg people are interested."

As to the report of a combine of lumber interests, that has been talked of before several times and the same names associated, I do not know anything regarding it. The sequel is known. A telegraph correspondent in Minneapolis yesterday would include a bigger combine than any set of men could bring about."

Made the Match for His Father.

LONDON, March 8.—[Special.]—The Birmingham papers print a pretty story regarding the circumstances under which Right Hon. Joseph Chamberlain made the acquaintance of Miss Endicott and secured an American wife, and according to the statesman's son, played the part of the father in the marriage of his father. Mr. Chamberlain, Jr., it appears, visited America the year before his father went there to negotiate the fisheries treaty. He met Miss Endicott, and his return home spoke of her with so much enthusiasm that the father on reaching Washington called at once upon the family with a letter of introduction. The sequel is known. The same spell of fascination was cast over the father and in course of time the younger than any of the children became the statesman's bride.

Mr. Gould Starts on a Trip.

New York, March 8.—Mr. Jay Gould and a party of friends will leave the city today for a trip through the Southwest. The first objective point is St. Louis, where the annual meeting of the stockholders of the Missouri Pacific railroad will be held next Tuesday. The party will consist of Mr. Gould, President Samuel Stone, of the Delaware, Lackawanna & Western road, Director Henry Marquand, of the Missouri Pacific, Geo. J. Gould, Dr. Mann and Miss Helen Gould.

Sold to a Syndicate.

CHICAGO, March 8.—A morning paper gives currency to the rumor that the north Chicago street railroad company had sold its property to a syndicate, the composition of which was not known. It is known that on the stock exchange there has recently been an increased inquiry for the securities of this company, and that they have advanced five points within the past two days. This is the corporation controlled by the Elkins-Widener syndicate of Philadelphia, and managed by C. T. Yorke.

Mormon Converts from the South.

TORONTO, Kansas, March 8.—The Denver express yesterday had on board Mormon Elder Frye, of Salt Lake city and 175 converts to the faith from the South. They occupied three cars. Frye has been a missionary to the South for three years. His converts were from the back woods of East Tennessee, Northern Georgia and Alabama, and were for the most part ignorant people. The elder is apparently well educated, and says that he will give his people new homes in the West.

An Angel Mischief.

CRAWFORD, Ind. March 8.—George Cook, aged 70 years, an inmate of the poor house, was yesterday discovered to have \$525 hidden in a box under his bed, \$400 of it in gold.

ROUNDS UP THE WEEK.

A Rather Dull Time at Tower.—The Regu- lar Interesting Budget of News.
Toronto, March 8.—[Special.]—Soper, the well-known lumberman, is confident of getting his full cut in, and claims yesterday's snow will guarantee the asser- tion.
C. L. White, the sawmill man, is home from Indiana, and reports that state as rejoicing greatly over Ben's grand inau- guration. It is currently reported that Mr. White would make a good mayor, but it is doubtful if he would accept.
Tower is now a city. Fly, our neigh- bor, must be, and possibly Sellwood will be some fine day.
Postmaster Benson has a year yet to serve.
The Business Men's association held a meeting last night which was well at- tended. Various matters were agitated, not the least of which was the recent attack on Tower by a few county papers.
Prominent Washington land attorneys are expected on the range during the latter part of the month. They are rep- resentatives in a few heavy cases now pending in the courts.
The action of the Duluth chamber of commerce relative to the special tax matter is endorsed by all our citizens.
Heavy demands have been made on the Iron Range company to prohibit the system of piddling, now in vogue, by St. Paul houses. It is certain that the hucksters must go.

The week closing tomorrow has not been very active on the Vermilion from either a mining or business standpoint. Few, if any sales are reported. None have been officially announced and an option has been given. One mining company has been formed in St. Paul for Vermilion work, but as yet it has no lands. The Michigan reports about the Vermilion amounts to nothing, while the rumor of ore in in- uence quantities being found a short ways from here is not confirmed. Large trains of C. E. & Q. cars are on the Minnesota tracks and that means shipping. Only a few trains of ore have been on the range, and on the whole the week was dull and inactive.

A REPORT DENIED.

The Sabin Rumor, Published Last Night Denied--Started for Political Effect.
St. Paul, March 8.—[Special.]—W. H. Fisher, vice-president and general manager of the Duluth & Winnipeg road, speaks as follows with regard to the statement that ex-Senator Sabin is to be the president of that road: "There is not a particle of truth in the rumor. The elder is apparently well educated, and says that he will give his people new homes in the West.

An Angel Mischief.

CRAWFORD, Ind. March 8.—George Cook, aged 70 years, an inmate of the poor house, was yesterday discovered to have \$525 hidden in a box under his bed, \$400 of it in gold.

WHERE IS THE GROOM?

The Bride Was Ready, But the
Groom Came Not--Myster-
ious Disappearance.

Alcohol Responsible for a Tra-
gedy at Mora--Possibly
Two Deaths.

A Jealous Husband Shoots His
Wife, Then Takes His
Own Life.

MINNEAPOLIS, March 8.—James W. Vicars, bookkeeper of H. S. Smith & Co., the bridge square commission mer- chants, disappeared under singularly mysterious circumstances on Wednesday afternoon. The day had been named for his marriage to Miss Hattie B. Ray, of 313 Newton avenue. Vicars, with one of the firm, had gone to the court house and secured the marriage license. A carriage for the occasion had been ordered. Vicars had called upon his prospective bride in the forenoon and upon leaving assured her that she could expect him to call with the carriage promptly at 3 o'clock, but he failed to keep the appointment.

Vicars boarded at Mrs. Laclair's private boarding house, 519 Third avenue south. He said his dinner there on Wednesday, and he remembered to have gone to his room and subsequently to have walked into the back yard. At this point all trace of him was lost. Mrs. Laclair afterwards recalled having heard several pistol shots in the back yard sometime in the afternoon. Search was made for the missing bridegroom about the premises but no trace could be found of him, nor was there any note in his room explaining his absence. Vicars was sober and industrious, a man given to books and in no way dis- sipated. He came to this city from Michigan, where his father resides. He was 32 years old, and had saved a large part of his earnings, which had been in- vested in a home and furnishings on Pleasant avenue and Twenty-Eighth street.

ALCOHOL THE CURSE.

Serious Shooting Affair at Mora--The Parties Were All Drunk.

MORA, Minn., March 8.—A mysterious shooting affair occurred yesterday at Brunsview, seven miles south of here, at the house of Mrs. A. G. Gessler, who is Mrs. Hanson and a brother-in-law, Jacob Hanson, were severely wounded. The shooting is claimed to have been done by a man named William Nating. The story told by Nating is that he left Mora this morning intending to go to Pine City, and being acquainted with the Hansons, who lived on the road, he called in for a short visit. While there he said they began drinking some alcohol which he had taken with him from Mora. After a time they became drunk, especially Nating, and a quarrel arose. Nating said Jacob Hanson knocked him down with a stick of wood, and about the same time the shooting occurred. "When he was shot," Nating said, "he was lying on the ground, and I was lying on the mantel. Nating has been arrested. There were present in the house be- sides Nating and the two wounded parties, a young man and woman, son and daughter of Mrs. Hanson, who are parties who accused Nating of the deed. The Hansons have had a bad reputation, and it is thought that the shooting was done by some of the family who Nating was unconscious, and in order to clear themselves they have accused him."

A JEALOUS HUSBAND.

He Shoots His Wife to Death and Then
Suicides.

TEPPE, Ohio, March 8.—The town of Fostoria, Ohio, fourteen miles west of here, is torn up over a terrible tragedy which occurred there last night. For some time William Gessler, of that place, has been working at a glass place in Findlay. Last night he appeared at Fostoria, and went to the house of his wife's parents, where his wife had been living during his absence, accompanied by his brother-in-law. The wife was called to the door by Gessler. The brother-in-law, who was standing in the back- ground, heard Gessler ask his wife a question which he could not understand. She answered "No." Quick as a flash Gessler drew a revolver and shot her, the ball entering the hip. She turned and staggered into the house when he shot her in the neck and she fell, dying on the floor. Gessler then placed the revolver against the front of his wife's neck and shot. The ball passed through the neck killing him instantly.

It was all done so quickly that nobody had time to interfere. The cause of the deed is as yet unknown, though it is supposed to be jealousy.

Effects of the Inauguration.

WASHINGTON, March 8.—A rumor that gained currency this morning to the effect that Associate Justice Matthews of the supreme court of the United States, had had a severe relapse and was dying, proved upon inquiry at his resi- dence, to be untrue. Mrs. Matthews stated to an Associated Press reporter that the justice had a slight relapse Monday night, brought on by imprudent eating and excitement incident to the inauguration day and that for a time his symptoms were of such a nature as to cause some alarm. "At no time, how- ever," said Mrs. Matthews, "was his con- dition critical, and this morning he was much better than he had been for some days."

Noted Inventor Dead.

NEW YORK, March 8.—Captain John Ericson, the famous Swedish engineer, who designed the ironclad Monitor and launched her complete in 100 days, died this morning shortly after 12 o'clock. He had been ill for only one week, when a physician was called in. Owing to his advanced age Mr. Ericson failed to rally. The deceased was born on July 31, 1803, in the province of Wermland, Sweden.

Will Stay to Fight Sullivan.

BALTIMORE, May 8.—Jake Kilrain, who sailed from New York Wednesday, in answer to the statement that he is going to Europe to escape his match with Sul- livan, says he won't go. If Sullivan will agree to meet him in six weeks.

APPLIED TO DULUTH LINES

Milling-Transit System to be Applied to Duluth-Bound Wheat.

Another Blow to Chicago's "Own Commerce" and a Hard One.

What is known as "milling-in-transit" rates have been in force for a long time with Chicago lines and connections running from the central, northern and southern parts of Dakota through Minneapolis to Chicago. These rates have been such that the vast proportion of all wheat coming into Minneapolis to be ground was performed carried out and East to Chicago by the lines issuing the transit. Duluth, having no lines penetrating beyond Minneapolis, has never been able to avail itself of this system of rates, and has been forced in this as in many other matters to fight for what it got at odds.

But, as also in other matters, particularly that of the corn trade, Duluth is now likely to get her rights and a new howl from Chicago over alleged "discrimination" and a "trending of commerce into unimpaired lines" may be expected in a few weeks. Let it be observed, however, that the unnatural lines are only unnatural because of their ownness. The milling-in-transit system is soon to be extended to Duluth, and probably none can realize so well what this may mean as Chicago grain dealers, shipper and trunk line roads, all of which will use a traffic enormous in volume and value, while the Chicago board of trade will be forced to give way more and more of its prestige as anything but a gambling hall. It is now several years since Duluth passed Chicago in the annual handling of wheat, now we are getting the corn which would "naturally go to Chicago" but seems to naturally come to Duluth, and soon by the extension of the milling-in-transit system we will have a stronger pull in what little spring wheat and northwestern flour they now get there. As the great grain market of the United States Chicago is doomed. As a result of the capital there and the power Chicago grain traders have, the speculation corner may be kept there some years, but it will be merely the shadow, from which the substance and breath of life has departed, and will give but ephemeral and fleeting glory, while Minneapolis and Duluth will do the actual business.

It is now practically settled that the Manitoba road has decided to put into effect the milling-in-transit rates from Dakota points to Duluth via Minneapolis, making the same rate to Duluth as to Minneapolis. If this is done the whole fabric of grain rates in the Northwest is likely to be torn to shreds. The lines tributary to Chicago will have a fight on their hands involving millions of dollars, a fight, too, that can only be a losing one. The grain trade of the Northwest is by far the most important item of railway traffic in that territory, and in the last few years the Manitoba road and Duluth on the one hand, and the Northwestern roads and Chicago on the other, the northern line will have the advantage of the transit route to the lakes. If the milling-in-transit principle is adopted by the Manitoba, the Chicago lines will be forced to lower their ordinarily low rates to get any business at all.

Speaking of this matter today grain men and shippers were naturally jubilant. Said one, "When this system is in force and the resulting rates by lake eastward, both over the Manitoba's own steamships and other lines and vessels are in operation, the natural trend of commerce will show more strongly its direction. We look for wonderful advantages both to wheat and flour traffic from this inauguration of milling in transit, which now seems certain. Of course it will be of particular benefit to the railroad inaugurating it, but it will change grain rates to a new and better basis, for us, and will increase the employment at what is the head of the lake to an immense degree."

NO APPOINTMENT MADE.

The State Grain Commissioners, Intervened by the Herald, have decided to appoint a State Grain and Warehouse Commissioner, Assistant Secretary, Treasurer and Chief Inspector, of the state inspection department, are in Duluth today, coming up this morning from St. Paul. In regard to the probable appointment of John J. Randall as chief inspector, Commissioner Gibbs could only say that he had not been made the inspector, that there was neither any certainty that he would or would not be. "He contests the place with several other would-be appointees, and he has strong opponents behind him, urging him forward. Whatever is done, continued Commissioner Gibbs, "will not be for some time, if at all. No changes either in the state inspector or deputy inspectors or weighmasters at Duluth, will be considered before the end of April or perhaps the end of May. There is a large quantity of wheat here in store that has been graded in by certain officials and under a certain guiding hand; we do not propose to make changes at least until this wheat is out of store. Our policy is to continue the grading as carefully as possible, and to carry out that policy we cannot make changes in the heads of the department while wheat is in store. No, I think it is better to wait until the wheat is out of store, and then we can make any changes we may see fit to make for several months."

There is another position which Mr. Randall may be offered. It is the position of chief weighing master at St. Paul. If this office is created and Mr. Randall can be induced to accept it, the office of chief grain inspector will go to another person, likely the present incumbent, Mr. James, or to R. C. Burdick, who formerly held the position. Mr. Randall was a member of the board of railroad and warehouse commissioners from 1874 to 1878 and while in the position became well versed in the work of the chief grain inspector. He is well adapted in every way to fill the position. His home is in Winona, where he is engaged in the mercantile business. In politics he has been a staunch republican. The commissioners are here today simply to look over the business, and especially its new features in corn and wheat and return to St. Paul tonight.

A Chance For a Home.

Money furnished to build houses, Easy terms, long lease, low interest, no brokerage or commissions. M. B. HARRISON, Spaulding house.

For Sale—Valuable Oneonta property, 250 lots in the city town of Oneonta for sale, 1/2 cash, balance in put a year and two years at 8 per cent. J. R. CAREY, Room 3, Metropolitan block.

If you want to sell your property quick list it at M. B. HARRISON'S, Spaulding house.

WE'LL NOT GET IT.

No Probability that the School of Technology will be Aided by the State.

Even the most sanguine promoters of the bill to authorize and aid the Minnesota School of Technology at Duluth have lost hope, and there is now no probability that the bill will become a law. Retrenchment and reform seems to be the watchword of the Minnesota legislature, when pet private schemes are not on foot, and Senator Whitteman and Representative Graves will be unable, unaided, to carry through this bill. Especially since Gov. Merriam's retrenchment message, printed in the Herald yesterday, is unfavorable issue probable, instead it may be said with a positive assurance that the bill for this session, is doomed. Of the value of such an institution there is no doubt, and no dissenting voices are raised. Of Duluth as the best location only Minneapolis, and perhaps St. Paul admit doubt. They of course are led by jealousy of this city toward the institution connected with the state university. An appropriation of \$100,000 to found or aid in founding a new institution which will be a constant beneficiary of the state hereafter, is more than the average legislator can stand just now, especially when the needs of the present state institutions are clamored for needed funds and the state obliged to borrow to meet its pressing needs. Estimates show that by the time the next legislature meets, two years from now, receipts will be equal to expenditures. Duluth may then hope to secure the passage of this bill then with more ground for success.

PROBABLY NO TEAM.

Not at all Probable That Duluth Will Have a League Ball Club this Year.

It is hard to think of Duluth without a ball team for another season, said Manager Anderson, of the Base Ball Association. "But the prospects for a club are not over and above bright. It's going to be a prosperous year for the city, and the Northwest in general, and there is no doubt but that a nine would at least come out even at the close of the season. I have been and am in correspondence with base-ball managers in other cities, but no definite conclusion has been reached yet. I had hoped to have arranged matters before now, either for a league with Oskosh, East Claire and those towns, or one with Fargo, Grand Forks and those smaller cities. There's money enough here to back a ball team in good shape, if we can get the other places to come to the front. We have been two years without it, now is, shall we allow 30 to pass the same way?"

THE DAY IN THE CITY.

At the high school this afternoon interesting rhetorical services are in progress.

Probabilities are that the weather will be considerably colder tomorrow than today.

The regular semi-monthly entertainment of the Bethel is to be given this evening.

Considerable iron ore from the east is already being shipped to Chicago furnaces by rail.

The contract is let tomorrow for the excavation for the Palladio office building. About 4,000 yards of earth will be taken out.

Minimum temperature this morning was 15 above zero. The day has been dull and cool and indications are for a continued coolness.

Cedar posts, poles and paving blocks are now being sent to St. Paul and Minneapolis from the cedar swamps north of Duluth and Two Harbors.

A concert will be given here next Wednesday evening by the St. Paul quartet, assisted by the male quartet, and Mrs. McKinley and Miss Slavson. The entertainment promises to be interesting.

The Belt Line Railway & Transfer company will soon begin survey of their line around the harbor. The Minnesota Terminal & Transfer company expects to begin very active work soon.

M. M. Gasser will open a grocery store on Superior street, near the La Port hotel, in a week or two. He has already made arrangements to occupy a store in the Chamber of Commerce when completed.

The roads running out of the city to the farming district back of it are clear of snow and for many miles out by the wheeling is excellent. A Pike Lake farmer states that to that lake the roads are as good as in midsummer.

Whatever holes are forced to be made in Superior street pavement are filled back with gravel and sand instead of the clay taken out. This is to prevent a settling of the earth after the concrete and cedar blocks are replaced.

The work of preparing the ground for the new building, to be put up by the city, is well advanced. The lot adjoining the Hayes building, was begun yesterday afternoon. It will occupy the site of Rainey & French's store, which is to be moved to the lot adjoining the Hayes building.

Ross Jewell, a resident of Eighth avenue west and Ninth street, complained to the chief of police that she had no control over her two boys and wanted the police to warn them of Superior street, where they spent most of their time.

Clara H. Hill, administratrix of the estate of Samuel J. Hill, deceased, brings a suit against the St. Paul & Duluth road to recover \$300 damages. The deceased, an engineer, met his death from injuries sustained in a collision on the 31st day of October, 1898.

PERSONAL.

E. L. Whittington is in Fargo for a few days.

J. M. Poole, of Chicago, is in Duluth today on business.

Miss Metcalf, of St. Paul, is visiting Mrs. Payton, of this city.

F. A. Gooding left last night for a short visit to Rochester, Minn., his old home.

Messrs. Agnew and Egan, respectively contractor and architect of the Spaulding house, are in the city.

L. L. Bradley and family returned last night from a six weeks visit in Bay City with relatives and friends.

George H. Smith, Miss Bessie M. Smith and Miss Annie Winchester, of Chicago, are in Duluth today, visiting.

H. C. Howard, of the dairy commission, is in Duluth looking up bad butter and pseudo cheese, while watery milk will also receive his attention.

General Agent Hartman, of the Northern Pacific road, returned last night from a long eastern trip, and a stop in Washington over inauguration day.

Commissioners Gibbs, Judge Williams, Assistant Secretary Treiberg and Chief Inspector James, all of the state grain department, are in Duluth today.

C. A. has been in Ely and Tower a few days. He considers the iron district a promising field for the work of the association and will put a secretary and station in that field.

The books are now open for stock sales in the seventh series of the Home-Steid Building & Loan association. Call and see us. F. W. SMITH, Secretary.

DULUTH ARCHITECTS TALK

They Report Themselves Extremely Busy--The Outlook Good.

Some Buildings They Are at Work on and Their Estimates.

The architects were visited by a reporter this morning and all were found busily engaged in drawing plans for structures which will soon grace the streets of this city. Some did not desire to divulge building secrets they possessed, but said there were more structures, good, bad and indifferent, projected for 1899 than any year before. Of the more elegant blocks the knowledge of Munger and Mendonhall's, the Masonic building, Pastore-Stenson Palladio government building, chamber of commerce is common property, but these are only a few of the many to be built. O. G. Traphagan was found talking with the marble tile manufacturer from Marysville, and a frame one at the corner of Twentieth avenue and Superior. Plans for dwellings are too numerous to mention in detail, but the amount to be expended is a good round sum.

Young & Terryberry said: "We are making plans for a double three-story terrace apartment house for Herman E. Long, to cost \$12,000. They will be built between Third and Fourth streets on Third avenue west. We also have plans drawn for a two-story stable, 40x100 feet, for F. W. Erickson of the West End. The cost will be \$5,000."

Palmer & Hare were very reticent. Said they they had some important plans under way, but could not speak of them at present. "Dr. Graft," said Mr. Hall, "is going to build two apartment houses, but of the others I can not tell you, at least, not now."

Architect Rudolph would only say: "If you can come around in a week or so, I'll give you some news." McMillan & Stebbins also promised some important information in the near future, but would only say, "building matters were booming. In Henry Reader's office he and his assistant, Mr. Coffin, who is here to resume business, the plan having been closed for some time, because of Mr. Humble's illness. I just got here from Chicago. Mr. Haecker's house, which cannot give you much information, we are going to work on the Palladio building. About 4,000 yards of earth will be taken out. I expect to let the contract for the excavation for the same time this week, and the Commerce building will soon be under way. Other than that, I am not able to give you anything new." Building contracts are being let, and are making preparations for it. Altogether, it does not need a prophet to make the prediction, without fear of contradiction, that Duluth will see a remarkably brisk building boom during 1899.

A WELCOME INVASION.

Wealthy Easterners to Camp Near Duluth on the Kila Kila Plain.

Samuel P. Boardman, of Brooklyn, New York, who is one of the most popular tourist agents in America, arrived in Duluth last night, on a flying trip. His mission is to arrange for the coming to the north shore of Lake Superior during the present year of a party of wealthy tourists from New York, Brooklyn and Philadelphia. They will number about 200. The guests will spend about three months on the north shore in a permanent camp. They will be thoroughly equipped with all the latest paraphernalia of camping out, and will endeavor to rough it on the Kila Kila plan. They will have quite a fleet of row and sail boats including three (perhaps four) fast steam yachts built for either ocean or lake navigation. These latter boats will be located at Beaver Bay, Two Harbors, Grand Marais or Duluth, when not actively employed. One of the boats will act as a despatch boat and the main camp, and will run between the points carrying mail for the party, and supplies. During the season the resident campers will entertain invited visitors from the East, who will meet at Duluth by one of the steam yachts and conveyed to the headquarters of the north shore. Last year the party camped on the shore of Lake Huron and the year previously on Georgian Bay. They have put in one season in the Bermudas and two on the Florida coast. Mr. Boardman left East on the Omaha train this morning.

Dentist.

Dr. C. G. Von Suesmick, the dentist, desires to announce to the people of Duluth that he is now located at Nos. 9 and 11 West Superior street, over Silberstein & Bondy's. Gold work a specialty. Vitalized air administered for the painless extraction of teeth. Any one in need of the aid of a dentist would do well to call on him. All work warranted.

GOSSIP FROM OVER SEAS

English Court Rules That a Woman May be Called a "Cow."

Joe Chamberlain Still Being Against "The Grand Old Man."

Late News and Gossip of Interest From Continental Cities.

LONDON, March 9. [Special.]—The dictum has just been laid down in the English law courts that it is no breach of good manners, much less a slanderous offense, to call a lady a "cow." This remarkable decision was evolved by Mr. Montague Williams, until recently the leader of the English bar, and now presiding judge of the London criminal court. Mrs. Salter, a well-to-do woman, had summoned a neighbor for disorderly and abusive conduct, having particular stress upon the fact that she was called a cow. But the judge threw the case out of court, remarking that the plaintiff to pay the costs, remarking that the same time that the cow was so clean and pleasant an animal that to apply the adjective to a woman is no libel. Until this decision is reversed by the upper courts it can be quoted as the law of the land.

Joe Chamberlain's Speech. LONDON, March 9. [Special.]—The Loyal and Patriotic Union has decided to issue Mr. Joseph Chamberlain's recent speech to the liberal unionists at St. Andrews, Scotland, as a campaign document against the Gladstonians. It will be headed with this extract from the address: "I object to the policy proposed by a statesman for those whom he has himself described within recent times, as the enemies of his country. I object to take such a policy. I object to be called upon to reform the British constitution at the dictation of disloyal Irishmen, who are less than I willing to accept it at the dictation of American Irishmen or the convention of Chicago."

Must not Horsewhip Editors. LONDON, March 9. [Special.]—A Bombay dispatch says that Captain Andrew Hearn, a wealthy resident of Allahabad, has been sent to jail for a month without the option of a fine, for horsewhipping George M. Chesney, managing editor of the Pioneer, who had alluded to the captain editorially as a "half-breed." The defendant pleaded that the editorial was a reflection on his mother, but the judge in passing sentence, remarked: "We do not intend to allow violence and American methods to be introduced into India as between the public and the newspaper editors."

Honoring William's Memory. BERLIN, March 9. [Special.]—Solemn funeral services were held here today in memory of the late Emperor William. The entire imperial family, from the emperor downwards, was in attendance. The Empress Augusta was accompanied by the Grand Duchess of Baden, and carried a pair of her own horses. The late emperor's personal household and servants were also present at the service, which was of an extremely affecting nature.

Expunged for Embellishment. LONDON, March 9. [Special.]—Hon. Joseph P. Dole, formerly a member of parliament and one of the leading members of the bar, has had his name expunged from the roll of members of the House of Commons. He had been elected to the House of Commons in 1885, and had been a member of the House of Commons for three years. He had been a member of the House of Commons for three years, and had been a member of the House of Commons for three years.

A Syndicate of Washwomen. PARIS, March 9. [Special.]—Ten thousand fully qualified and duly accredited washwomen, having united themselves into a syndicate for the purpose of looking after their interests in an official manner. They have also organized a house or market, where they can go to work and make their own terms, just as is done by artisans and laborers.

The Prince Protected. LONDON, March 9. [Special.]—The prince of Wales recently made a protest against the alleged cruelty practiced upon the acrobatic donkey exhibited at Hengler's circus, referring to it as a painful exhibition. Today he received a reply from Sir John Colman, secretary of the Royal Society for the Prevention of Cruelty to Animals, to the effect that the law did not allow them to interfere when an animal was simply frightened.

Twenty-two Must Hang. LONDON, March 9. [Special.]—The increase in capital crimes is attracting considerable attention. No less than twenty-two men and women are now under sentence of death in the United Kingdom, and will be executed within the next six weeks.

FROM THE NORTH COUNTRY.

Tower to Have a Fine Hotel—A Large Budget of News From the Range.

TOWER, March 9. [Special.]—The business men held a meeting last night and discussed the feasibility of a new hotel in Tower—on that would cost about \$30,000, and containing the latest improvements. D. H. Bacon, C. L. White, Chas. McNamara, Neil McNamara, Charles Oppel and James Groten. Should the building be constructed it is more than likely that E. E. Barnidge, of the Hotel Sheridan, will be the landlord, as he is thoroughly competent and just the man for the enterprise.

Mrs. Ann Shephard, wife of Registrar of Deeds Shephard, returned to Duluth this morning accompanied by her mother. Captain Selwood left the Chandler mine this morning intending to spend

Sunday with his family in Duluth. He does not believe one thing will come before late in May. His opinion of Duluth is exceedingly flattering.

D. T. Denton will be given a reception tonight by his many friends, who are departing for Cuba, his future home. Capt. Morcom is at present quite ill, and will be treated in a similar manner when he recovers.

Lovine Bros will not occupy their new store, but it will be rented to any responsible party at a low price.

Heralds for sale at Chas. Kieren's fruit store and the post office.

The people of Ely gave a grand ball last night, which was largely attended and heartily enjoyed by all. The Town orchestra, under the leadership of Prof. Duffy, furnished excellent music.

Honore Williston and Sam Erb, of the Williston-Charnley saw mill, went to Duluth this morning.

All news agents on Iron Range sell the Herald in quantity.

John Mannan has returned from a two weeks' trip in the woods, and is now in Duluth. As usual, Mr. Mallman has a fund of information.

MR. HUMBLE DEAD.

A Well-known Duluth Architect Dies of Heart Failure.

At 7:10 this morning, Mr. A. Humble, junior member of the firm of Rieker & Humble, breathed his last in room 14 of the Merchants hotel. During the last few weeks he has been troubled with heart failure accompanied by a choking sensation in the throat, and during the time J. J. Condon and wife, occupying the room adjoining, have been very kind in endeavoring to help him. This morning he felt another attack coming on, and rushed from his room out into the hallway of the hotel and knocked at Mr. Condon's door. The door was unlocked and Humble rushed into the room, fell into a chair, gasped a few times, and all was over. For the last seven years his life has been a weary battle against disease and sufferings, and the end was welcomed gladly. The recent family troubles, caused by an unfortunate wife's runaway, did much to hasten his death and for several weeks he was confined to the house. He was 38 years old, and will probably be buried in Des Moines. Humble was a superintendent of construction and designer are many, not only in Duluth but elsewhere. He was superintending in charge of the building of Iowa's magnificent capitol at Des Moines, and several other great buildings and his skill in this line was acknowledged. He was to have had charge of the chamber of commerce and Palladio buildings, both of which was planned by his firm.

AN OLD DULUTHIAN.

And He Falls in Boston for a Full Million Dollars.

A few days ago the Boston firm of H. A. Gould & Co., dealers in India rubber, ago, dyestuffs, camphor, etc., failed for the reason that the firm had been doing a large import business on a small capital, and had suffered severely by the failure of the "Spill-hinders" and looking for Alaska. Sika is just ten days' journey from Duluth, and a man who has lived in Duluth and Minnesota ought to find it a favorable claim.

Secretary Welles—I have no objection, only the appointment shouldn't be changed up to Duluth. I don't think it is fair to have a man appear as a Duluth politician.

Judge Stearns—"I should like to see Mr. Costello receive the very able man, a perfectly competent man for the place."

D. G. Cash—R. A. Costello made a good record in his very able man, and good citizen. He would make a good governor for the territory.

A LOVE FEAST.

Comptrolers Crowd Secretary Windom's Reception Yesterday.

WASHINGTON, March 9.—There was a genuine Minnesota love feast in one of the Exhibit house parlors yesterday, as it was planned to be a simple call of congratulation on Secretary Windom by the Minnesota delegation. The Minnesota delegation, which included a number of the prominent Minnesota people in Washington were present.

Speeches were made by Mr. Windom and Senators Davis and Washburn, Representatives Dunning, Lind, Snyder and Comstock. T. E. Byrne, president of the State Republican league, Prof. Toney and W. H. Eustis, of Minneapolis, also spoke.

Mr. Windom's response was mainly devoted to his appreciation of the compliment paid him, and through whom he desired to convey to all the people of Minnesota, without a single exception, assurance of his cordial good feeling and entire approval of his appointment, that had reached him from so many sources.

OSHKOSH HEARD FROM.

The Wisconsin Town Comes Up With a Proposition for Base Ball.

Oshkosh has been heard from on the base ball question. Last night J. W. Anderson received a letter from W. H. Lucas, former manager of the Duluths, now at Brooklyn, Ohio, enclosing a letter from the Oshkosh baseball club, a C. C. Chase, the head of the old Oshkosh league, has been interviewed, and states that he is desirous of forming an interstate league. He says Oshkosh, En. Claire and La Crosse were never so enthusiastic over ball matters as they are now. Lucas hints that the Oshkosh club make a trip to the town in a proposed league and agitate the question at once, "for," he writes, "people grow unenthusiast with warm weather." It is possible some one here may be found to make a tour through the proposed league route.

To Find the True Source. ST. PAUL, March 9. [Special.]—Willard Glazier's claim to the discovery of the true source of the Mississippi has caused so much discussion of late, and having had the name "Lake Glazier" engraved on several maps as the source of the Mississippi, he has been thought by several societies, the Minnesota State Historical society among the number, to investigate the true source of the river, and to whom credit is due. J. V. Brower, of St. Paul, has been selected as the commissioner and will make a trip to that country and make surveys and report to the Minnesota State Historical society.

Mrs. Hanson Dead. MOREA, Minn., March 9.—The woman who was shot at Brainerd by the Th. Mrs. Hanson, died yesterday. The county attorney and Justice Safford made an investigation on the premises of the Th. Mrs. Hanson, and he has been admitted to Mr. Gates and a farmer that he did the shooting, but denied it afterward and the eye witnesses point out the man Ne. tting as the guilty party.

Park Point's Election. The citizens' ticket for the village election at Park Point is the following: For president, M. Gulliver; trustees, J. S. Meeson, A. Weber, W. McDonald; recorder, Jno. Meares; treasurer, Jno. Russett; justice for one year, Wm. Osborne; constables, Wm. Cobean and D. Irwin.

GOVERNOR R. A. COSTELLO

That is the Way One of Our Business Men May Yet Write His Name.

If the President Heeds the Wishes of Prominent Men of the State.

What is Said of it by Duluthians Who Know, or Think They Do.

ST. PAUL, March 9. [Special.]—Col. Plummer, of the Casselton, Dak., Bizar, is not to have a walkover for the governorship of Alaska. Hon. R. A. Costello, formerly a member of the legislature from the Forty-second district when he was a candidate of Graceville, but who is now making his home at Duluth, is an aspirant for this important office, and his claims will be presented to President Harrison backed by many of the most prominent men in this state.

Armed with the above telegram a Herald reporter interviewed a number of Duluth's leading politicians on the subject. Said one who stands very close to Mr. Costello, but who doesn't desire his name given: "Costello told me some time ago that his friends had mentioned him as the place, and that they were urgent that he should try for it. He asked me not to like to seem to try for all those positions, but I'm not going to try for this one, as I believe I have a right to it. I advised him to go ahead and make a try at it, and believe he stands a first rate show. He has the best of backing, not the least of which is a strong push by Governor Merriam. As to Plummer, he is not the only one who is responsible for the 'Spill-hinders' and looking for Alaska. Sika is just ten days' journey from Duluth and a man who has lived in Duluth and Minnesota ought to find it a favorable claim."

Secretary Welles—I have no objection, only the appointment shouldn't be changed up to Duluth. I don't think it is fair to have a man appear as a Duluth politician.

Judge Stearns—"I should like to see Mr. Costello receive the very able man, a perfectly competent man for the place."

D. G. Cash—R. A. Costello made a good record in his very able man, and good citizen. He would make a good governor for the territory.

A LOVE FEAST.

Comptrolers Crowd Secretary Windom's Reception Yesterday.

WASHINGTON, March 9.—There was a genuine Minnesota love feast in one of the Exhibit house parlors yesterday, as it was planned to be a simple call of congratulation on Secretary Windom by the Minnesota delegation. The Minnesota delegation, which included a number of the prominent Minnesota people in Washington were present.

Speeches were made by Mr. Windom and Senators Davis and Washburn, Representatives Dunning, Lind, Snyder and Comstock. T. E. Byrne, president of the State Republican league, Prof. Toney and W. H. Eustis, of Minneapolis, also spoke.

Mr. Windom's response was mainly devoted to his appreciation of the compliment paid him, and through whom he desired to convey to all the people of Minnesota, without a single exception, assurance of his cordial good feeling and entire approval of his appointment, that had reached him from so many sources.

OSHKOSH HEARD FROM.

The Wisconsin Town Comes Up With a Proposition for Base Ball.

Oshkosh has been heard from on the base ball question. Last night J. W. Anderson received a letter from W. H. Lucas, former manager of the Duluths, now at Brooklyn, Ohio, enclosing a letter from the Oshkosh baseball club, a C. C. Chase, the head of the old Oshkosh league, has been interviewed, and states that he is desirous of forming an interstate league. He says Oshkosh, En. Claire and La Crosse were never so enthusiastic over ball matters as they are now. Lucas hints that the Oshkosh club make a trip to the town in a proposed league and agitate the question at once, "for," he writes, "people grow unenthusiast with warm weather." It is possible some one here may be found to make a tour through the proposed league route.

To Find the True Source. ST. PAUL, March 9. [Special.]—Willard Glazier's claim to the discovery of the true source of the Mississippi has caused so much discussion of late, and having had the name "Lake Glazier" engraved on several maps as the source of the Mississippi, he has been thought by several societies, the Minnesota State Historical society among the number, to investigate the true source of the river, and to whom credit is due. J. V. Brower, of St. Paul, has been selected as the commissioner and will make a trip to that country and make surveys and report to the Minnesota State Historical society.

Mrs. Hanson Dead. MOREA, Minn., March 9.—The woman who was shot at Brainerd by the Th. Mrs. Hanson, died yesterday. The county attorney and Justice Safford made an investigation on the premises of the Th. Mrs. Hanson, and he has been admitted to Mr. Gates and a farmer that he did the shooting, but denied it afterward and the eye witnesses point out the man Ne. tting as the guilty party.

Park Point's Election. The citizens' ticket for the village election at Park Point is the following: For president, M. Gulliver; trustees, J. S. Meeson, A. Weber, W. McDonald; recorder, Jno. Meares; treasurer, Jno. Russett; justice for one year, Wm. Osborne; constables, Wm. Cobean and D. Irwin.

THE DAY IN THE CITY.

A meeting of the school board is to be held this evening.

Bids were opened this noon for the excavation of the Palladio building.

Minimum temperature this morning was 19° above, the day has been dull, but not at all cold.

The little steam yacht Rozie, thirty feet over all, was brought up by the St. Paul & Duluth today.

W. L. Plaisted, formerly proprietor of the Oriental cafe in Duluth, is now in Worcester, Massachusetts, proprietor of the Westcomb house, and doing a good business.

Wieland Brother's new brick building on the site of the Itinerary & French company's store, will be pressed brick front, 50x115 feet, five stories high. Its cost will be about \$40,000.

Additions to the chamber of commerce library come in regularly. The last is a complete set of navigation and hydrographic charts of the great lakes, which arrived last night.

A State Dairy Commission Howard was unable to find either had butter or oleomargarine in Duluth on the visit ended last night. Recent prosecutions in this neighborhood of wholesale butter firms have had a very salutary effect.

The loggers are quaking in their shoes, fearing lest the weather may any day be warmer. At present they are able to haul, but only by careful nursing of their roads. A few more such days as these of the early part of this week would completely cut them out.

Hancock, Mich., people, now living in Duluth, will be pleased to learn that, at the village election recently, several people, well known in Duluth, were elected. The following is the ticket: President, Thomas Smart; trustees, Archibald J. Scott, Harry D. Hudlock, Michael R. Redmond; recorder, Michael Finn; treasurer, John P. Huberty; attorney, Jeremiah T. Finnegan; marshal, Edward Lee; assessors, John N. Mitchell, Frederick Francis.

Blue water is visible now only about a mile from the base of Minnesota Point, what they were evening breaking of a wind yesterday evening, breaking of and carrying down the lake a large ice rotten ice. The open water channel from the canal now reaches full half way from shore to uninterrupted navigation, and a strong tug could get out to free sailing if there was need of it. In the bay open water extends from the canal to Sixth avenue west, and around the rocky channels at the ends of Rice's and Grassy Points ice is very weak.

PERSONAL.

E. R. Brace returned last night from a visit in Washington.

N. A. Gearhart and son have just returned from St. Paul where Mr. Gearhart has been on important business.

C. W. Wilding, of Fort Wayne, Ind., who has been the guest of W. A. Foote for several days, left for his Hosiery home this morning.

W. E. Cash, formerly of Duluth, but now of St. Paul, Superior, and manager of Coulter & Brown's interests there, was in the city yesterday.

John S. Pardee and sister leave Duluth next Wednesday for Saratoga Springs, where Mr. Pardee will take charge of the Daily Union, a paper he is expected to resuscitate. Duluth loses in the exchange a good newspaper man and a man of very many good qualities.

Word was received here last night stating that Judge Reynolds, father of Fred Reynolds, of the law firm of White, Shannon & Reynolds, had died at his home in Crookston. Judge Reynolds, a lawyer known in all the northern part of Minnesota and highly respected. He had been ill for some months and his death was not unexpected.

A Western Suburb. At Pike lake the fish that were planted last year and the season before are said to be large enough to catch, and there will be much better sport at Pike lake than at any other place in the county. The fish had been killed off as the result of the building of a dam at the lower end of the lake several years ago.

McLean's steam saw-mill has been in operation some little time and is furnishing a market for the farmers for both lumber and hardwood cut on their lands. Several new houses are built and building on the lake shore and lots in the village of Pike Lake are selling occasionally. With such a fine road as there now is to that suburb, and the fishing, hunting, and out-of-door enjoyment possible to be had there, it is expected by Pike Lakers that their place will become a favorite summer resort for Duluth people, as indeed it will.

THE DAY IN THE CITY.

Of the \$78,000 personal tax \$72,000 has been paid into the county treasury. The county tax settlement will foot up to \$132,942.04.

Fargo will have a big demonstration St. Patrick's day, and have invited Chief Drom to sing some of his "inimitable Irish songs," offering to pay his expenses if he will come. The proceeds of the Parnell fund.

With spring has come the rumor that an ocean steamer and railway ticket at Pike lake, speaker of the Wisconsin house of representatives, and granting him the privilege of the floor. Speaker Graves invited Mr. Mills to his seat, and introduced him to the house. He made brief remarks of thanks for the honor.

RE-APPOINTMENT.

What the Committee Has Agreed to Recommend to the Legislature.

ST. PAUL, March 9.—A basis of re-appointment has been practically agreed upon by the joint committee of both branches of the legislature. A meeting was held with closed doors in the caucus room, yesterday afternoon, when a determined effort was made to settle all differences and decide on a basis which would be at least fairly satisfactory to all sections of the state. It was the unanimous opinion that some measure of re-appointment must be passed this session, and rather than have the whole idea killed those members of the committee who were opposed to increasing the number of representatives waived their objections on that score and agreed on 114 as the maximum number to be allowed for the house and for the senate. The Forty-sixth district is allowed one more representative than at present.

Protests Pouring In. ST. PAUL, March 9.—General protests against the usury bill from various parts of the state, and especially from the new agricultural districts in the Northern and Northwestern parts, were received by the senate yesterday.

Pool Tables May Stay. ST. PAUL, March 9.—The house defeated the Kreiss bill to prohibit the keeping of billiard or pool tables in saloons, by a vote of forty-one to thirty-four, absent or not voting, twenty-eight.

Enterprise at the Junction. NORTHERN PACIFIC JUNCTION, March 9. [Special.]—Rosefeldt & Faxon, Albert Lea parties, have bought a location at this place upon which there is a fine deposit of brick clay. They are experienced brick makers and will put in a large brick yard this spring equipped with the latest machinery.

ADDITION.

MINNESOTA PATRONAGE.

The President Will Allow Our
Two Senators to Fill
The Offices.

Who Some of the Candidates
Are and What Their
Hopes Are.

The President Sends Some
Nominations to the
Senate.

WASHINGTON, March 11.—It has been agreed that the two senators—Davis and Washburn—will control the appointments of collectors of internal revenue, collectors of customs, surveyor general, district attorney and United States marshal in Minnesota. There is some little kicking among the representatives regarding this arrangement, two of the number claiming that they have some rights which should be respected by the senators in parceling out these five offices. Notwithstanding the opposition the senators will control them just the same.

J. N. Staley, of Monticello, is keeping things very hot for the United States marshalship. He is leaving no stone unturned, and if he does not get it, it will be through no fault of his own.

W. H. Rust, of Minneapolis, is now believed will not ask for the postmaster ship at Minneapolis, but will ask for a position in the diplomatic or consular service. He would like to be made minister to Stockholm, and yet his name is associated with the post of minister to Persia, succeeding E. Spencer Pratt, of Alabama, who was for years the minister to the "Jack" here of "The Quick or the Dead." Pratt, it will be remembered, succeeded Minister Winston, of Chicago, who made such a foolish exhibition of his vanity, and was recalled.

Pratt did not enter upon his duties until about a year and a half after Mr. Cleveland came into office. He is now silent upon the subject himself, but some of the Minnesota contingent now here are mentioning his name in connection with the latter place.

Representative Constock will probably not be greatly interfered with in his laudable, but north half of the state and for the numerous governmental appointments in which Duluth is interested. For the position of supervising inspector, which is wanted both by Duluth and the other districts, there may be somewhat of a contest, but the leading Duluth candidate is backed by intimates of the senators. Papers and petitions from all parts of the state are now coming in briskly and Minnesota seems to realize that she was near the head of the column in republican matters.

Turn Both Heads Out.—A difficulty which came near being serious in its consequences, took place today between S. B. Cunningham, disbursing clerk of the house of representatives and Turner Hackman, a riding pug in the employ of the house. The trouble between the two dates back about a week when Cunningham, it is said, refused to honor an order presented by Hackman for an extra month's pay under the delinquent appropriation bill. This morning Hackman went to enquire about his pay and Cunningham is said to have made some insulting remarks. Hackman then lay on his back and the latter drawing a revolver fired at Hackman. The ball missed its mark and embedded itself in the wall, and no further damage was done. Cunningham was subsequently arrested.

The Senate Today.—WASHINGTON, March 11.—Mr. Beck appeared in the senate chamber this morning and took the oath of office, before entering on his third senatorial term. For over a quarter of an hour there was no movement made to proceed to any kind of business, and then a recess was taken until 1:30, presumably to await the presentation of executive nominations. On resuming at 1:30, a number of nominations were read from the president, and the senate, on motion of Mr. Sherman, went into executive session to consider them. At 1:40 the doors were reopened and the senate adjourned. In executive session the nominations were referred to the appropriate committees when formed.

Presidential Nominations.—WASHINGTON, March 11.—The president sent the following nominations to the senate today: State, Thomas V. Palmer, of Michigan, to be envoy extraordinary and minister plenipotentiary of the United States to Spain; John F. Swift, of California, to be envoy extraordinary and minister plenipotentiary of the United States to Japan; John D. Washburn, of Massachusetts, minister resident and consul general of the United States to Switzerland; George T. Tichenor, of Illinois, to be assistant secretary of the treasury, vice Isaac E. Maynard, resigned.

The nomination of Mr. Tichenor as assistant secretary of the treasury was asked by the Illinois delegation and they object to his being charged up as part of the state's quota of offices. Secretary Windom told one of the congressmen that Mr. Tichenor's appointment was his own and should not be charged to any particular state. Mr. Tichenor's reply now being becoming somewhat monotonous, "We have no information," is made in answer to requests for some news regarding the alleged destruction of the Nipic at Seneca. Mr. Walker, of Blaine, says that the department of state utterly discredits the story.

New Troubles.—WASHINGTON, March 11.—Unless unforeseen obstacles are encountered within a few months after the beginning of the next fiscal year, July 1, contracts will have been let for the construction of new war vessels, which will, in the aggregate, increase the tonnage of the navy nearly

15,000 tons. Although the majority of the new vessels will be small, when compared with the monster ironclads of Europe, they will embody in their construction the latest approved ideas, and because of their high speed and heavy armament, will be very formidable.

The New Chairman.—WASHINGTON, March 11.—It is reported that the chairmanship vacated last session have been filled as follows: Agriculture, Algenon S. Paddock; engrossed bills, Wilkinson; call; enrolled bills, Charles B. Farwell; manufactures, James S. McMillan; railroads, John H. Mitchell. Mr. Quay, who stood next in line for the chairmanship, the committee on manufactures, declined to accept it. Senator Washburn takes Senator Palmer's place on the committee on commerce.

Judge Carey Resigns.—WASHINGTON, March 11.—Judge Carey, solicitor of the treasury, has tendered his resignation to the president, to take effect upon the qualification of his successor, Mr. E. B. Yarnum, chief clerk of the treasury department and has placed his resignation at the disposal of secretary Windom.

Closed to Callers.—WASHINGTON, March 11.—The White House was closed to callers this morning with the exception of those having appointments with the president and congressmen about to leave the city.

Acts the Conscience.—ST. LOUIS, March 11.—The legislative delegates from Nebraska, Minnesota, Colorado, Texas and some from Kansas, appointed to be paroled on these five states, adopted some general and uniform plan of action against the alleged beef and pork combine, have arrived, and others will come in on the night train. The convention will meet at noon tomorrow at the Southern hotel.

NOTES FROM THE RANGE.—A Farewell Banquet to a Good Citizen.—General News of the Day.

TOWNS, March 11.—Saturday evening the Knights of Pythias and Odd Fellows gave a banquet and reception to D. T. Denton, who was reported for Cuba. The hall was crowded with all nationalities, and a more enjoyable time could not be expected. Mayor Shephard presided and delivered one of his most little speeches. Mr. Denton responded gracefully and was warmly applauded. He was warmly welcomed by the citizens of the town, and his words were decidedly appropriate. Jas. L. Burke had charged down to a delicious supper, after the speaking announced supper, which was the most jolly banquet that ever occurred in Town. Seventy-five people sat down to a delicious repast. Mr. Kohn played a few piano selections, with D. McKinley at the violin. The music was appreciated and enjoyed. Mr. West sang a few songs. After the tables had been cleared, more speaking was in order. The mayor started, and was followed by Messrs. Owen, McNamara, Morton, Tippet, Sawbridge, Hutchinson and others. Mr. Denton gave a concise description of Cuba, its mines, its climate, and wound up by presenting to the societies a large and beautiful American flag. More speaking followed, but as the hour was late, the exercises closed by a song by J. Owens, the audience joining in the chorus. Handshaking was in order, and each man bid Mr. Denton a farewell. He left this morning for Lima, Michigan, where he will visit a short time. Power ranger and his departure, as he was a good man and a good citizen. He was presented with an elegant pocket by them as a token of remembrance.

John Sawbridge desires to thank his political supporters, but respectfully declines any position on the political stage now forming.

Lorenzo Cleaves is home from Oregon and will remain. Lands of pine do not entice him like lands of iron.

Candidate for mayor McNamara arrived from Ely this morning. The administration of the Sellers estate will be placed in the hands of Duluth Attorney Smith. Nelson Sellers holds that position at present.

Charles Jesner went to Duluth this morning. J. P. Williams has sold out his feed store, and will engage in the mercantile business.

Jas. Sheridan, one of the ablest iron men connected with his range said: "I am positive the Vermilion will have a good season and expect to see many good properties developed. I cannot see how the on-shore entry ever effected this country now." Mr. Sheridan goes to Duluth in a few days.

The Health Report.—During February there were 40 births in Duluth and deaths 25. Of the births 25 were female. This per Health Officer Sherman's monthly report made Saturday evening. Other features of the report were the following: Visits made during the month 498, nuisances attended 98, notices served 147, complaints attended 46. A report was read of the results of tests made of ice made by Dr. Hewitt, showing the ice examined to be vile. The matter of disposal of garbage was considered and cremation was considered an improvement over either the Merz or the lake deposit systems. It was thought best to purchase a strip of land for a crematory.

The Langtry Married.—NEW YORK, March 11.—The World this morning publishes a statement that Mr. Frederick Gebhardt and Mrs. Langtry were married in this city. A representative of the World yesterday asked each of them if such was the case, but could get only non-committal answers, but a new plain gold ring adorned Mrs. Langtry's left hand. Her divorce is said to have been granted Monday in California.

Six Thousand Strikers.—FALL RIVER, Mass., March 11.—The weavers' strike for an advance in wages which began this morning is one of the most general in the history of labor troubles here. The weaving departments of fifty mills are practically shut down, and 6,000 weavers are idle. Those who refused to strike do not number more than half enough to keep one mill going.

Converted to Protestantism.—TONTON, March 11.—[Special.]—Mrs. Julia O'Connell, a Catholic, was converted to Protestantism by the Rev. Daniel O'Connell, the great Irish patriot, has become a member in full standing of Dr. Wilda's Presbyterian church. She is 50 years of age and up to a month ago was a devout member of the Roman Catholic church.

Will not Shut Down.—PITTSBURGH, Pa., March 11.—The rumor that the iron mills of this section would shut down before long because the prices now paid for manufactured products had become so low that the mills are being operated at a loss, is denied by prominent manufacturers.

Our Mary Nearly Well.—BALTIMORE, March 11.—Miss Mary Anderson will not attempt to play the Holiday-street theater until Wednesday night, although she has nearly recovered from nervous prostration.

FROM OVER THE OCEAN.

The Queen Graciously Consents to the Appointment of Sir Julian.

London Interested to Know if Patrick Egan Will go to Mexico.

The Programme for Henry George's Campaign in England.

London, March 11.—The queen has approved the appointment of Sir Julian Parnfote as British minister to the United States.

Reason for the Mexican Mission.—The cable dispatch to the effect that Patrick Egan is being pressed on the attention of President Harrison for the Mexican mission, and that his prospects are regarded as extremely favorable, created a great deal of comment in parliamentary circles on Saturday and yesterday at the clubs. Members of the Gladstonian party, both English and Irish, commented freely on the Mexican mission, and one of Mr. Parnell's lieutenants remarked that such an appointment would not only be extremely gratifying to the cause, but would be a mark of recognition from the United States which would undoubtedly give an impetus to the cause throughout the country.

Mr. Labouchere, it is stated, contemplates a visit to the United States during the present summer.

Henry George in England.—London, March 11.—[Special.]—The announcement is made today that the Henry George campaign will be formally inaugurated on Wednesday evening with a mass meeting in Exeter hall. Headquarters were opened this morning at the Westminster Palace hotel, W. Saunders, the noted radical ex-member of parliament, and proprietor of the Central North-western, England, and committee. Forty meetings in London and the provinces have already been arranged for and applications from all parts of the United Kingdom asking lectures by Mr. George during his visit are coming in by every mail. Quite a large number of English land owners, several being members of parliament, have subscribed to the guarantee fund in order that the public may be afforded as many opportunities as possible for hearing Mr. George expound his views on the land question.

Lumber Rates Must Come Down.—CHICAGO, March 11.—[Special.]—The managers of the western roads are having another tussle today with the vexed question of lumber rates. The lumber men are insisting that the rates be lowered, and it is understood to be pretty well settled that lumber rates from Minnesota and Wisconsin must come down, even though the managers are unwilling to go to this extreme in consequence of the revenue that will be sacrificed. The Northwestern dealers however are insisting upon their rights, and the managers have about decided to yield to the claim.

Tony Jewish Wedding.—MILWAUKEE, March 11.—[Special.]—The temple Aase Jacob was crowded to suffocation last evening when the celebration of the marriage of Miss Fannie Rosenberg, of this city and Meyer Bank, of Chicago, took place. The celebration was attended to the event from the fact that the unique service known as the ancient orthodox, Hebrew ritual, was employed for the first time in the city in many years. The wedding was followed by a dance at Siederkrantz hall.

The High Seas.—MARINE NEWS OF IMPORTANCE AND INTEREST TO FRESH-WATER SAILORS.—It is quite probable that inside of four weeks communication by lake will be resumed with Port Arthur and intermediate points. Fishermen are getting their nets and boats in order and an attempt will be made next week to distribute supplies and fish. The Vermilion will have a good season and expect to see many good properties developed. I cannot see how the on-shore entry ever effected this country now. Mr. Sheridan goes to Duluth in a few days.

The Inland Lloyd's register for 1889 will be out April 15. A rival and fully illustrated edition of the register, however, is said to be in press at Detroit.

Navigation was resumed in Buffalo harbor March 4, the first of the season. The attempt to tow a boat, the Badger State, off the dry-dock.

New shipping stocks and tackle are being placed on several of the elevators and new "winning" piles are being put in position at the corners of many docks and pier heads.

The range piers in the Superior entry channel will be ornamented and made useful at night by the addition of range lights.

Considerably over 800 feet of new dockage will be built this season, including the West Duluth and St. Louis river improvements.

The Omaha Northern Pacific, St. Paul & Duluth and perhaps some other railroad companies will establish their dock police in about a month. The men will all be uniformed and regular patrols will be made night and day. Captain De Courcy will command the St. Paul & Duluth force.

Commodore Byron Inman returned Saturday, and the air in the vicinity of the big Inman fleet is full of living paint brushes, carpenter tools and other evidence of life. Steam will be up in the record this week and she will commence next week to break ice (if any remains for the Williams & Upham dredges. The Ossifrage is a scene of life and bustle, and she will probably make a trip to Port Arthur two weeks from today. She has a lot of freight under contract at both ends of the route. This time last year the boats had a great thickness of solid ice around them; now there is not six inches, and some of the craft are perfectly free. The local opening will be six weeks earlier than last year.

A lively little fracas occurred on the Northern Pacific Brainerd train yesterday. A big, burly lumberman, who was taking himself obnoxious generally, was asked to stop his noise, and upon his refusing to do so, the chief conductor, a well-known lumberman, went for the interviewed the disturber for a couple of rounds, and the lumberman emerged from the encounter considerably the worse for wear. Both eyes were blackened, his face pannelled, and he remained quiet for the rest of the journey.

DULUTH'S SCHOOLS.

A Meeting of the Board—Visiting Days.—General Matters of Interest.—A meeting of the school board was held Saturday evening. It was decided to move the old Franklin school to a location on Minnesota Point. Superintendent Denfeld's monthly report was read showing the number of scholars enrolled. A report of Palmer & Hall regarding the Jefferson building was read. It was to the effect that while no present danger existed, it would be well to look to the repairs with after the frost comes out.

The night schools closed a few days ago, with an average attendance of about 400, one-third larger than last year. Four rooms have been open for attendance, three in the high school building under the supervision of Professors Thompson, Cochran and Stultz, and one at the Adams school in the West End. E. S. Walker in charge. Last Friday was the regular visitors' day at the Washington school, one day in each month being set aside for the inspection of the schools by any who wish to call. The second Friday of the month is the time at which visits can be made at the Jefferson and Franklin schools; the third Friday for the Jackson school, and the fourth for the Monroe and Madison. Although but five rooms were thought to be necessary when the new Franklin school was opened, yet six are now occupied and another year might well be needed. The Lincoln school at Twenty-fourth avenue west is none too large a supply room for the attendance, and another building is needed at the East End, as the Jefferson is so full it cannot accommodate the pupils. On First avenue west and Third avenue east, so as to include Sixth avenue east, thus relieving the pressure brought to bear on the Jefferson school. The term's work has thus far been very satisfactory to Prof. Denfeld and his corps of assistants.

THE DAY IN THE CITY.—Contracts for the machinery of the Imperial mill will be let in a short time and the mill will be grinding by the beginning of the crop year.

Among today's transfers is one of \$103,000 for 32 blocks, being all of Oakland Park, part of the avy of 11-50-14.

Earnings of the Northern Pacific for the first week in March were increased \$15,675 over the same week in 1888, and made a total of \$345,406. Of this \$218,000 was freight and \$127,406 passenger.

Messrs. Baur, Johns, Dorsett and Anderson were the drunks at the municipal court today. The latter paid a fine.

A big force is working on the Duluth Electric company's building and it will be completed this week.

Munger & Markell, E. W. Markell and J. A. Abbott will move into one of the new offices in the St. Louis hotel, the former owner.

The tug Maggie Carroll was bid in at sheriff's sale this morning by M. Carroll, the former owner.

Watworth & Fee have let all their sub-contracts on the new Lincoln school for some station on the lower bank.

The wind of early Sunday morning took off the last ice floes along the shore and the water is now visible except over toward the south shore.

Frank Beard, the chalk talker appears in the church lecture course a week from today. His fame as a talker and an illustrator is much greater than that of Th. Nash and he will draw a crowd.

Lumbermen on the Fond-du-Lac reservation are looking for a tremendous shortage in the cut.

Messrs. J. J. Shotwell and L. J. Tausig of Duluth have been in Minneapolis on the looking over the field with a view to starting in the hardwood lumber business. Mr. Tausig has been in that line since 1870 and he will discover the lumber in Duluth. They think favorably of locating in Minneapolis.

The dredging for the Herold is increasing so fast on the Vermilion that hereafter the news agents under the supervision of Richard Schell will sell the papers on all iron range trains leaving this city.

At the St. Louis the false front has been taken down and the new store, made from the old office, are nearly ready for occupancy.

More steel is arriving for the American Barge company's new 324-ton ship, and shipbuilders will soon be making the day the hideous sound of the base of Rice's Point.

All-night hauling is inaugurated today a number of the logging camps in the Duluth district. On the south shore there is said to be still enough snow to grease the roads, and this is being carefully nursed.

Several whiskey cases will come up before Judge Carey in a day or two, all for being sold for liquor to Indians.

The frost is coming out of the ground rapidly and work will re-commence very soon on the First street paving contract as well as on other big jobs.

The body of the late architect E. A. Humble will be taken to Omaha tomorrow morning by his wife who came up from Iowa Saturday afternoon.

E. G. Swanstrom has returned from St. Paul, where he, with Aldermen Kennedy and Kendall, who are now there, had gone to engineer the Duluth local bills through the legislature. The municipal charter amendment bill has passed both houses, but will probably be amended in the senate and re-passed before it receives the governor's signature.

The health officers are getting ready for a vigorous campaign against uncleanness, and promise to have Duluth cleaner this year than ever before. The first move will be in regard to alleys, and anyone found throwing garbage in them will be prosecuted. Arrangements are also nearly completed to appoint a city garbage collector.

The motion before Judge Stearns for a writ of trial in the case of Bradley & Hanford vs. the St. Paul & Duluth railroad company regarding riparian rights on the side of Rice's point, decided adversely to the defendant, has been denied and the case will go to the supreme court.

The ruins of the Pennsylvania house and Dietz's tailor establishment on East Superior street are being torn down.

Its New Freight House.—The St. Paul & Duluth railway has abandoned the idea of its proposed freight depot between Lake and First avenue west, and will use the space for additional freight tracks. Workmen commenced this morning to prepare the ground for the ties and rails. The company will build a freight depot of stone and brick on its property in the rear of the Spaulding house, now occupied by a trial in the case of Bradley & Hanford vs. the St. Paul & Duluth railroad company regarding riparian rights on the side of Rice's point, decided adversely to the defendant, has been denied and the case will go to the supreme court.

VIOLENCE AND CRIME.

A Scamp with a Romantic Career in Crime Sent to the Georgia Mines.

A Foolish Clerk Tries to Rob a Bank But is Very Easily Captured.

Milwaukee Citizens Mad Clear Through at Immoral Chinese.

SAVANNAH, Ga., March 11.—[Special.]—George McDaniels, the celebrated burglar and one of the most desperate criminals in the country, was sent out to the mines today to serve a sentence of twenty-one years' imprisonment. Yesterday he declared that he would escape again at the first opportunity, even if he had to commit murder in the attempt. "Hell couldn't have more terrors for a fellow than those mines," he remarked passionately, "and I'll never be sentenced to thirty years in a northern prison than to five underground."

McDaniels was convicted of burglary last April and sentenced to fifteen years in the mines. Two months later he managed to escape, and although the police of all the principal cities were notified, he succeeded in eluding capture until last week, when he was taken in Philadelphia. During the summer and fall he was a guest of one of the most fashionable hotels at Saratoga. The jobs in which he is believed to have been concerned in the past ten years would fill a volume. Among them are burglaries in Chicago, Louisville, Indianapolis, St. Paul, Cincinnati and numerous other cities and several post-office robberies in Illinois. His sweethearts have been legion, while of wives he has had more than a sufficiency. One was a young girl of high parentage living near Cincinnati, who went to prison rather than reveal how some of her husband's plunder got into her parent's house, while the last was a sixteen-year-old Southern beauty of wealth and position. This beauty was interrupted by the groom's arrest and last month the broke-hearted wife of a month secured a divorce.

A BOLD ROBBERY.—Not that a Amateur Thief was Quickly Caught and Sent to Jail.

WATERLOO, N. Y., March 11.—One of the boldest bank robberies that has occurred in this portion of the state in many years surprised the people of Waterloo, St. Lawrence county, Saturday.

F. L. Smith, cashier of the Norwood bank, was alone in the building about noon when Charles Phelps, the post office clerk, entered and asked for some stamps on a letter to his home in the vault to get them when Phelps quickly closed the door and turned the combination on the safe. The cashier, who was taken by surprise, turned toward the money drawer and took all the paper money that it contained, \$278, leaving several hundred dollars in silver. Phelps had made arrangements to have a horse ready, and with it he started at once for the Canadian border, about fifteen miles distant.

Meanwhile a customer entered the bank and saw what had happened. He heard the cashier calling to him from the vault, and being instructed as to the combination, released him. Prompt action was taken to prevent Phelps from leaving about noon when Charles Phelps, the post office clerk, entered and asked for some stamps on a letter to his home in the vault to get them when Phelps quickly closed the door and turned the combination on the safe. The cashier, who was taken by surprise, turned toward the money drawer and took all the paper money that it contained, \$278, leaving several hundred dollars in silver. Phelps had made arrangements to have a horse ready, and with it he started at once for the Canadian border, about fifteen miles distant.

The West Superior Budget of a Quiet Day--Park Pointlets.

West Duluth's Warmly Contested Election--General News of The Hour.

WEST SUPERIOR.

A Budget of Good News From Duluth's Neighboring.

Ed. Digle returned on last evening's limited and brought his wife and sister with him.

John Gordon, who has been for a long time western agent of the Anchor line lake steamers, has been appointed general manager of the Northern Steamship company, with headquarters in St. Paul.

The ladies of the Baptist church are advertising a musical, literary, astronomical and general entertainment and bazaar for Wednesday and Thursday evening of this week. The celebrated Smith family will appear.

Dr. Kittington, sanitary engineer of Minneapolis, met the citizens of West Superior this afternoon at 2 o'clock.

Leonard & Simons are building the new house for the West Superior Brewery company. The building is 30x50, eighteen feet high. The building was commenced last Wednesday and will be completed tomorrow night.

Taxes which have not been paid became delinquent Saturday night.

"Ole Olsen" will be presented at Opera hall next Monday by Gus J. Hoeg in the title role.

Alex. MacEachron left on this morning's Omaha for Milwaukee. He goes as delegate to the grand lodge K. of P.

Richard Collins received five years in state's prison at Waukegan. His sentence is the full extent of the law.

The regular monthly meeting of the West Superior Building & Loan Association will be held tonight.

The West Superior theatre opens tonight under new management and new name, The Duchess.

The Rev. Cyrus K. Capron, of the Episcopal church, will be home this week in time to conduct services next Sunday. Services will be held in the chapel on Towner avenue, Friday evening.

About one hundred and fifty men are now at work on the West Superior steel plant.

WEST DULUTH.

Politics in the Square--The cost of paving Central Avenue.

Library association meeting tonight.

Ladies Aid society will meet with Mrs. E. M. Minn Wednesday afternoon.

A church social will be held at Lon Merritt's Friday evening.

Mrs. C. H. Hoyt is expected to arrive in West Duluth today.

An adjourned meeting of the village council will be held Friday evening.

The village election takes place tomorrow. Politics have been the all-absorbing topic for the past few days and the spring little village has been slunk from center to circumference.

The light which began with the opposition to the re-election of the present council has resulted itself into a Merritt and anti-Merritt faction, as it is understood that one or more of the trustees are to be elected overboard at the caucus tonight in order to strengthen the Merritt ticket.

Dodgers are being circulated today announcing a meeting to be conducted under the auspices of the ticket nomination, March 8th, to be held at Home Bros' new store on Second street south.

The attention of voters is called to the fact that the proposed charter will be presented, and that able speakers will address the electors. The Merritt faction will also hold their caucus at Leader Johnson's building on Second street.

The following report of Engineer Martz was taken up for consideration at the council meeting Saturday evening, and laid over to give the property owners an opportunity of expressing their views on the improvements before the final pass of the petition relative to the opening of Central avenue. Estimate for grading and paving Central avenue, from railroad to Main street, 2,400 feet, 12,101 yards block paving on plank complete at \$1.25 per yard, \$15,126.25; 2825 cubic gravel, \$2,288.50; granite curbing, \$824.00; 500 yards excavation, \$240.00; lumber for sidewalks at \$15 per M foot, \$2,010; man holes, catch basins, sewer pipe, \$1,091; total, \$27,955.05. Laying sewer, pipe sewer, \$27,750.00; excavation, \$1,780; total, \$49,485.05. Total of all work, street sewer and sidewalk, \$49,485.05, or \$253.23 per lot.

WEST END NOTES.

J. A. Dowling who has been laid up for the past six months through an attack of typhoid fever, is able to be out again with the assistance of crutches.

H. C. Nelson's new building on Superior street will be completed about the end of the present month. The first floor will be fitted up for a store room and the second floor will be devoted to offices.

T. M. Erickson is building a large livery barn on First street. The building will be 10x100 and two stories high.

The following officers were elected at the Ladies' Mission and Aid society which met with Mrs. Findly on Wednesday. President, Mrs. Findly; vice-president, Mrs. F. C. Himebaugh; secretary, Miss B. S. Robertson; treasurer, Mr. E. E. Williamson. The work of this society during the past year has been very successful. For the ensuing year a considerable amount is to be set apart for the new church building. This building when erected will be one of the substantial structures of the city.

The following church services will be held tomorrow: Second Presbyterian church, Rev. T. M. Findly, pastor. Morning service: Genuine Enthusiasm. Native in Time Religion. Evening: Eternity of Joy and Sorrow. Grace M. E. church, E. S. Pilling, pastor. Morning service: A March of Mystery. Sunday school at 12 m. Evening: How to Obedy God's Call.

At the Rices' Point ice house this forenoon a number of men were at work lifting the house and one of them attempted to strike on a block. It slid down the way, riding another with great force and his left leg was broken below the thigh. The other leg was also badly bruised.

AT TWO HARBORS.

In the Throes of Temperance Agitation in the Shipping City.

Rev. C. S. H. Dunn will preach in the Presbyterian church on Monday on Temperance.

Rev. J. L. Johnston contemplated selling his property, corner Maple street and Second avenue.

Haunting is becoming popular with

WORLD OF COMMERCE.

Stocks in New York Take a Brace--The Visible Decrease--Market Notes.

PARK POINTERS.

Against the citizens' ticket at tomorrow's election will be pitted the Hibbard ticket, composed of men favoring the street railway franchise for Mississippi avenue.

Mr. Harvester's daughter who has been dangerously ill is recovering.

Mrs. A. C. Robinson, whose mother died recently, is still in very poor health.

Harvey Brown is improving his house by enlarging it.

Mr. Sheldon has returned from a hunting and trapping tour. He brought back the fur from four bears.

Mr. Le Mere is building a new residence.

Commodore Winters, the ferryman is building a pleasure yacht. It will be the largest on the lake.

C. H. Lawrence will start a summer garden at the end of the street car tracks in a few weeks.

The Park Point Methodist church is newly completed and will be dedicated the 14th of next month. Dr. Forbes, the presiding elder, officiating. Upon the evening of the 24th the ladies will give a sociable, the proceeds to go towards defraying the cost of the edifice.

PERSONAL.

R. C. Munger came up from St. Paul today for a short stay.

Thomas Dwyer returned last night from a month's visit in the East.

W. E. Richardson has just returned from a month's stay in Milwaukee and vicinity.

C. Virtue Bainsford, of Liverpool, England, is in Duluth, and expects to locate here.

E. D. Robbins, of S. Robbins & Son, contractors, who make a specialty of all kinds of theatrical work, is in the city.

R. A. Gray has returned from a long visit in Maine and other parts of the East. He will begin fitting up his Rice's Point saw mill in a few days.

Special Agent Chamberlain, of the St. Cloud district, is in Duluth today on government business.

R. B. Conkey, of the big contracting firm of Langdon, Shepard & Co., is in Duluth today and returns to Minneapolis tonight. Mr. Conkey's visit here is of importance, as his firm is after some valuable contracts of benefit to Duluth.

J. P. Baker, general agent for W. J. Dyer & Bros., of St. Paul, has just arrived in the city and is making arrangements to open a store across the bay. The company already has quarters here.

R. Angst, of the Duluth & Iron Range, is in the city today.

E. J. McFarlane, the Minnesota representative of Wolf & Co., the big Chicago plumbing firm, is registered at the St. Louis.

R. A. Costello is in Red Wing today looking after state reform school matters with the rest of the state conference. He will return in a day or two. The committee is today engaged in looking over three sites offered for the reform school.

H. C. Kendall, E. G. Swanson and R. C. Kennedy, of Duluth, members of the city council committee on legislation, are in St. Paul. They are there to look after Duluth legislation. They will oppose the municipal bond bill and work for the judicious bill now in the house, and for the city charter amendments passed upon by the council.

Conductor Summers of the Northern Pacific has gone to St. Paul on a ten days' vacation.

Capt. A. B. Wolvin returned Saturday night, bringing with him his wife and sister.

J. H. Legie was a passenger to Ash and this morning.

Col. Lyonal Ayres returned from his vacation this morning.

THE S. P. C. A. at Work.

The Society for the Prevention of Cruelty to Animals, through its secretary, C. H. Harvey, caught on to an aggravated case of cruelty to animals on Saturday. A horse belonging to a Lake Superior dealer was old and diseased and in going around a street corner turned one of its front ankles, breaking all the ligaments of the pastern joint. Messrs. Grady and Forsyth examined the animal, pronounced it unfit for service and the owner, called it Sunday.

The society will prosecute a lot of rag pickers who are maltreating an ancient piece of horseflesh, if any further complaints are heard.

Col. Lyonal Ayres returned from his vacation this morning.

THE S. P. C. A. at Work.

The Society for the Prevention of Cruelty to Animals, through its secretary, C. H. Harvey, caught on to an aggravated case of cruelty to animals on Saturday. A horse belonging to a Lake Superior dealer was old and diseased and in going around a street corner turned one of its front ankles, breaking all the ligaments of the pastern joint. Messrs. Grady and Forsyth examined the animal, pronounced it unfit for service and the owner, called it Sunday.

The society will prosecute a lot of rag pickers who are maltreating an ancient piece of horseflesh, if any further complaints are heard.
